Course 46:	<i>Marketing Research:</i>	Upon the Completion of the course, the student will be able to understand the problem formulation, research process and design, methods of data collection, concept and objective of this research.
Course 47:	<i>Financial Management:</i>	Upon the Completion of the course, the student will be able to understand the financial functions and its objectives, capitalization ratio analysis working capital management and capital budgeting and its structure.
Course 48:	<i>Human Resource Management:</i>	Upon the Completion of the course, the student will be able to provide hands on experience to work on industry assessment and gain practical knowledge.

Department of Commerce
B.C.A.
Programme outcomes

After the completion of this particular course the student will be able-

- PO1 Enable students to develop problem solving competence and enhance dexterity in using computers.
- PO2 Skills and analytical abilities in computer based solutions are developed in students.
- PO3 Inculcate various software development practices and to develop awareness about automation
- PO4 Train students in professional skills
- PO5 Understand the issues of Green Computing
- PO6 Develop the skills necessary in career of Computer Applications

Programme Specific Outcome

After the completion of this particular course the student will be able-

- PSO1 Produce knowledgeable and skilled human resources and augment employability in IT andITES.
- PSO2 Impart knowledge required for planning, designing and building Complex Application Software Systems
- PSO3 Provide support to automated systems or application.
- PSO4 Produceentrepreneurs w h o c a n developcustomized solutions for small and mediumEnterprises.

Course Outcomes

B.C.A. 1st Year NEP

Course 55: Paper Data Communication and Computer Networks

After the completion of this course, a successful student will be able to:

- CO1.Demonstrate the Basic Concepts of Networking, Networking Principles, Routing Algorithms, IP Addressing and Working of Networking Devices.
- CO2.Demonstrate the Significance, Purpose and application of etworking Protocols and Standards.
- CO3.Describe, compare and contrast LAN, WAN,MAN, Intranet, Internet, AM, FM, PM and Various Switching Techniques.
- CO4.Explain the working of Layers and apply thevarious protocols of OSI TCP/IP model.
- CO5.Analyze the Requirements for a Given Organizational Structure and Select the MostAppropriate Networking Architecture and Technologies.

CO6. Design the Network Diagram and Solve the Networking Problems of the Organizations with Consideration of Human and Environment. Install and Configure the Networking Devices.

Course 56 : Paper II Database Management Systems Using PL/SQL

After completing this course student will be able to:

CO1. Explain the features of database management systems and relational database.

CO2. Design conceptual models of a database using ER modelling for real life applications and construct queries in relational algebra.

CO3. Create and populate a RDBMS for a real-life application, with constraints and keys, using SQL.

CO4. Retrieve any type of information from a database by formulating complex queries in SQL.

CO5. Analyse the existing design of a database schema and apply concepts of normalization to design an optimal database.

Course 57: Internet Applications using Java Programming

After the completion of this course, a successful student will be able to:

CO1. Use an integrated development environment to write, compile, run, and test simple object-oriented Java programs.

CO2. Read and make elementary modifications to Java programs that solve real-world problems.

CO3. Validate input in a Java program.

CO4. Design and use basic applet for web page

Course 58: Paper III E-Commerce

On the completion of this course student will be able -

CO1. To learn the fundamentals of E — Commerce and its process.

CO2. To understand the role of E- commerce in the present scenario along with the concepts of security and its applications.

CO3. To gain knowledge of e-commerce business needs and resources and match to technology considering human factors and budget constraints.

CO4. To apply knowledge of changing technology on traditional business models and strategy.

CO5. To have skills to Communicate effectively and ethically using electronic communication.

B.C.A. II Year

Course 59 : BCA: Programming with C++

After the completion of this course, a successful student will be able to:

- CO1. Understand object-oriented programming:
- CO2. Be able to explain the difference between object oriented programming and procedural programming
- CO3. Be able to programme using C++ features such as Class, objects, operator overloads, dynamic memory allocation, inheritance and polymorphism, file I/O, exception handling, etc.
- CO4. Be able to build C++classes using appropriate encapsulation and design principles.
- CO5. Improve problem solving skills
- CO6. Be able to apply object oriented or non-object oriented techniques to solve bigger computing problems.

Course 60: Computer based numerical and statistical Techniques

After the completion of this course, a successful student will be able to:

- CO1. Students enable themselves learn computer based numerical methods.
- CO2. Coorelated numerical mathamatics with corresponding todays computer-based developments.
- CO3. Introduced with different mathematical approaches- diskastra method etc

Course 61: Operating System

After the completion of this course, a successful student will be able to:

- CO1. To understand the objectives, structure and functions of operating system.
- CO2. To learn about concept of processes, threads and its scheduling algorithms.
- CO3. To understand design issues in process synchronization and deadlock management.

CO4. To study various memory management schemes

CO5. To learn about concept file and I/O management in detail.

Course 62: Web Technology and Application Development using .Net & C#

After the completion of this course, a successful student will be able to:

CO1. Students will be familiar with client server architecture and able to develop a web application

CO2. Students will gain the skills and project-based experience needed

CO3. for entry into web application and development careers

Course 63 : RDBMS Concepts & Oracle

After the completion of this course, a successful student will be able to:

CO1. To study data security and its importance

CO2. To study client server architecture

Course 64 : Software Engineering

After the completion of this course, a successful student will be able to:

CO1. To understand system concepts

CO2. To know about software engineering and its application in Software development

Course 65: Organisation Behaviour

After the completion of this course, a successful student will be able to:

CO1. To understand the real time organizational hierarchy.

CO2. Understand the behaviour of different organizational levels.

CO3. Analyse system design and execution optimality and feasibility.

Course 71: BCA: Python Programming

After the completion of this course, a successful student will be able to:

- CO1. To introduce various concepts of programming to the students using Python.
- CO2. Students should be able to apply the problem solving skills using Python

Course 72: Project Application Development using PHP/JSP & MYSQL

After the completion of this course, a successful student will be able to:

- CO1. Understand various concepts of programming to the students using PHP/JSP.
- CO2. Apply the problem solving skills using PHP/JSP.
- CO3. About software engineering and its application in Software development
- CO4. Students Enables themselves to design and develop both front end and back end.

Course Outcomes (Course 73) of Ph.D.

Programme outcome

It is doctoral research degree and highest level of academic qualification. It is an original contribution of researchers about their specific field or areas.

Ph.D. has been viewed as a training process preparing students for careers in academic research.

Programme Specific outcomes

- PSO1 It is statement of knowledge, skill, attitudes, competencies and habit of mind.
 - PSO2 Valuable tool for improving the quality of higher education.
 - PSO3 Learning outcomes may help doctoral students the cost and benefits of their educational investments.
 - PSO4 This programme prepares the students for a variety of career paths.
 - PSO5 New efforts to diversify the pool of students who pursue doctoral education.
 - PSO6 Doctoral level degree play lead role to solve the academic problems by a set of competencies themselves.
 - PSO7 Increase the articulation of educational goal for students beyond the discipline.
 - PSO8 Publish manuscript in peer reviewed journals.
 - PSO9 Present a paper in academic conference.
 - PSO10 After completion of Ph.D. degree aspirants choose academic job or a position with a greater emphasis on teaching.
-

Department of History
B.A. History
Program outcomes

History is an account of the changes in human life and society, the ideas that determine the functions of society and the physical conditions that helped in its progress.

- PO1 History encompasses all areas of life.
- PO2 A student of history acquires logistic knowledge of life.
- PO3 The goal of the history department is to build such historians based on the teaching of the curriculum.
- PO4 Students can build a bridge between past and present through their research, through which the society can get an overview of the past.

Program specific Outcomes
B.A. History

The following career fields are open to the students with graduate degree-

- PSO1 Central Government Services through UPSC.
- PSO2 Eligibility to various administrative posts through PSC.
- PSO3 Various career options in museums.
- PSO4 As a tourist guide, archeological assistant.
- PSO5 Eligible for higher education in various special disciplines of History and in the field of script writer, record manager, memorial and archeological department.

Course outcomes
B.A. Ist History NEP

Course 74: Idea of Bharat

- CO1. Students will acquire knowledge regarding the primitive life and cultural status of the people of ancient India.
- CO2. They can gather knowledge about the society, culture, religion and political history of ancient India.
- CO3. They will also acquire the knowledge of changing socio-cultural scenarios of India.
- CO4. By studying this paper, students will get to know the golden past of India and feel proud of themselves.

Course 75: History of Ancient India (From Early to 1205 AD)

- CO1. The students will learn to analyze the various stages of evolution and development of man in the Prehistoric, Protohistoric and Historic Age.
- CO2. To have an in depth knowledge about the ancient civilization of India like Indus-Saraswati Civilization, Vedic civilization, Later Vedic civilization etc. and compare them with the other contemporary civilizations of the world.
- CO3. To explain in detail about golden past of India during the Mauryan and Gupta period, their conquests, art, architecture and literature, etc.
- CO4. They will able to write meaningful essays on the brave and courageous Rajput clans and the South Indian dynasties of India.

B.A. IInd Year

Course 76: Paper I - *History of India (1200 A.D. to 1739 A.D.)*

- CO1. Student learns about sources of medieval Indian history, foundation of Delhi Sultanate.
- CO2. Understands the disintegration of Delhi Sultanate, invasion of the Mughals.
- CO3. Students acquire knowledge of Akbar-Mughal empire, territorial expansion and rise of Marathas.

- CO5. Students learn from how did Mughal polity, economy, trade, commerce, society and role of women.

Course 77: Paper II - *Main currents of world history from 1871 to 1945 A.D.*

- CO1. Students acquire knowledge of imperialism and colonialism.
- CO2. This paper gives an idea of third Republic of France.
- CO3. This paper gives an idea of capitalism and ideological clashes between nations.
- CO4. Student acquire knowledge of causes, results and effects of first world war, Russian revolution, fascism in Italy, internal and foreign policy of Hitler and effects of World War II.

Department of History M.A. History

Program outcomes

- PO1. Through UPSC student is eligible for administrative services like IRS, IAS,IPS, etc.
- PO2. Eligible for administrative post through PSC.
- PO3. Eligible for the post in museum and archives (pvt/govt).
- PO4. Eligible for appointment to various post in tourism department.
- PO5. Eligible for higher studies M.Phil and Ph.D.
- PO6. Eligible for higher secondary education and school education.
- PO7. Competence for history writing.
- PO8. Self-employment opportunities

M.A. History
Program specific Outcomes

By the end of the program the students-

PSO1. Development of writing ability as a freelance history writers.

PSO2. Able to setup NGOs for the preservation of monuments and historical heritage.

PSO3. Able to make animation film and documentary.

PSO4. Act as a compiler of documents and was able to established their own independent archives.

M.A. History
Course outcomes

There are total eight papers in post graduate course. M.A. 1st and 2nd semester have four papers and M.A. 3rd and fourth Semester have four papers. In the I and II semester, there are specialization course paper (Optional). In the III and IV semester the first question paper is compulsory, there are three specialization course paper.

M.A (History) Semester I& II
Course 80: Paper I -*Historiography, concepts, methods and tools*
(compulsory)

CO1. Through this paper students are aware of concept of History, philosophy and various important fact related to historiography.

CO2. Understands the various aspects of History writings, students are capable of factual and scientific analysis of the entire events that happen in the society.

CO3. Develops an understanding of the various dimensions of historiography, able to distinguish between truth and myth of historical events.

CO4. This paper is very beneficial for the students to have an analytical review of the happenings in the country and society from different perspectives and to generate positive thinking toward society.

Course 101: Ph.D. Outcomes Programme Outcomes

PO1 Through research in various fields of History, students are able to set new paradigm of unfolding new developments.

PO2 Work as a history reviewer.

PO3 New avenues in Archaeological researches.

PO4 Able to establish various new norms of regional history.

PO5 Able to establish its identity as a historical thinker, reviewer and historiography.

PO6 Ability to write History independently.

**Department of Psychology B.A. Psychology
Program outcomes**

- PO1 Making familiar with the field of Psychology.
- PO2 Describe key and basic fundamental concepts and applications of Psychology.
- PO3 Apply Psychological content and skills to career goals.
- PO4 Develop meaningful professional direction for life after graduation.
- PO5 Understand Human Social Behavior.
- PO6 Awareness of self and social well being

**Program specific Outcomes
B.A. Psychology**

- PSO1 To have basic understanding of the subject of Psychology.
- PSO2 To get admission in post graduate course.
- PSO3 Analyze and understand abnormal human behaviour in practice.
- PSO4 To use basic Psychological test and experiments.

**Course outcomes
B.A. Psychology
B.A. I Year NEP**

Course 102 : Paper I – *Psychology of Personality*

Course 103 : Paper II – *Introduction to Psychology*

- CO1. Understand fundamental and key concept of Psychology.
- CO2. Understand career opportunities in Psychology.
- CO3. Understand the basic concepts of etiology, theories, types and treatment of abnormal behavior.
- CO4. Understand memory – nature and its types.
- CO5. Understand Psychotic disorder, anxiety disorder etc.

B.A. II Year

Course 104: Paper I – *Psychology of Human development*

Course 105 : Paper II – *Counseling Psychology*

- CO1. Understands Psychology of human development – Concept and Laws.
- CO2. Understands cognitive development, emotional development – problems and prevention.
- CO3. Able to understand the process of counseling and its applicability.
- CO4. Student understands group counseling and family counseling besides factors contributing towards mental retardation.

Department of Psychology M.A. Psychology Program outcomes

After successful completion of post-graduation course in Psychology students should be able to-

PO1 Pursue higher studies and in research.

PO2 Able to write clear project reports.

PO3 Understand inter disciplinary issues and aspects of society.

PO4 Understand basic concept of Psychology and to analyze behavior in practice.

PO5 To do scientific research in Psychology.

PO6 To understand the basic and fundamental papers of Psychology.

Program specific Outcomes
M.A. Psychology

By the end of the program the students learn-

- PSO1 To prepare students for scientific counseling.
- PSO2 Understand various abnormal Psychological behavior.
- PSO3 Students are able to communicate about Psychological illness.
- PSO4 To identify contemporary Psychological issues and challenges.
- PSO5 To learn Psychological skills for counseling.
- PSO6 To understand personality and other relevant tests.
- PSO7 Understand concepts of clinical setting.

Course outcomes M.A. Psychology
Semester I/II
Course 108: Paper I -*Cognitive Process*

After the completion of course the students are ready to take-

- CO1. Understand basic cognitive process.
- CO2. Understand language development process and related cognitive phenomena.
- CO3. Understand the process of sensation, perception and attention, memory and cognitive process.
- CO4. To understand the process of concept formation.
- CO5. To understand problem solving, decision making, creativity etc.

Course 109 : Paper II -*Research Methods and Statistics*

After the completion of course the students are ready to take-

- CO1. To understand various statistical concepts.
- CO2. To understand concepts of advance Psychological research.

Course 110 :Paper III -*Psychopathology*

After the completion of course the students are ready to take-

- CO1. Understand the basic theories and their application to the study of mental disorders.
- CO2. Understand concept of mental disorders.
- CO3. Understand therapies used to treat mental disorders.
- CO4. Understand mild and severe mental disorder.

Course 111: Paper IV -*Life span development*

After the completion of course the students are ready to take-

- CO1. To get a holistic perspective on the stages involved in human development.
- CO2. To understand basic Psychological theories and their application to the study of life span development.
- CO3. To study the various disorders associated with the process of development.

M.A. Semester III/IV

Course 112: Paper I -*Psychology of personality*

After the completion of course the students are ready to take-

- CO1. To learn and understand important theories of personality.
- CO2. Able to understand individual differences in behavior.
- CO3. Able to understand various perspectives of Psychoanalysis, behaviorism, cognitive, humanistic and existential theories.

Course 113: Paper II -*Social Psychology*

After the completion of course the students are ready to take-

- CO1. Understand the concepts of social behaviors and attitudes.
- CO2. To understand the basic theoretical approaches to Social Psychology.
- CO3. To develop interrelationship between social Psychology and disciplines.
- CO4. To understand the process of conformity, obedience and social behavior.
- CO5. To understand the meaning of groups and group process like behavior, social facilitation, social loafing, and leadership.
- CO6. To understand interpersonal attractions and concepts of aggression.

Course 114: Paper III -*Educational Psychology*

After the completion of course the students are ready to take-

- CO1. Understand meaning, scope, and methods of Psychology.
- CO2. To understand the problems in educational system.
- CO3. To understand the process of grooming a good teacher.
- CO4. To understand the process of application of cognitive process like concept, formation thinking, problem solving, creativity reasoning to the process of education.
- CO5. To understand the concept of motivation.

CO6. To understand the process of improving and maintaining effective learning environment, by applying various classroom management techniques.

Course 115: Paper IV -Clinical Psychology

After the completion of course the students are ready to take-

CO1. To understand the models of clinical Psychology.

CO2. To understand the clinical process of diagnosis, examination of Psychiatric patients.

CO3. To understand the process of clinical assessment.

CO4. To understand the types and techniques in clinical applications.

CO5. To understand the basic Psychotherapies and there clinical use in treating Psychiatric patients.

**Practical
Sem. I,II,III**

CO1. Tests and experiments continued.

CO2. Data collection methods like case studies, co-relation methods etc. lay the foundation for further understanding of research.

Sem. IV

CO1. Internship and project work gives practical understanding of research and statistical analysis.

**Department of Sociology B.A. Sociology
Program outcomes**

After the completion of course the students are ready to take-

- PO1 Eligible for M.A...
- PO2 Eligible for B.Ed.
- PO3 Eligible for UPSC/PSC exams.
- PO4 Choice for own business.

**Program specific Outcomes
B.A. Sociology**

- PSO1 Student can obtain higher education.
- PSO2 Useful to understand sociology and social sciences.
- PSO3 Important to study society in a scientific way.
- PSO4 Useful for developing positive thinking towards life.
- PSO5 Useful in personality development.

**Course outcomes
B.A. Sociology
B.A. I Year NEP**

In M.A. I & II Semester, students study one theoretical and three practical papers. Students understand history of Indian and European paintings and also learn sketching, portrait, landscaping, composition, folk art and block printing. Student learn various art styles the nuances of art which also contributes in their holistic grooming.

M.A. III & IV Semester

In M.A. III & IV Semester, student study one theoretical and three practical papers with the study of European modern art, art review and philosophy. The student obtains practical and functional knowledge of creative and modern art. They send their artifacts to various exhibitions.

Course outcomes M.A. Drawing and Painting

Semester I

Course 144 :Theory-History of Indian Painting

CO1. Students understand the various stages of development of Indian painting through the history of Indian painting.

Course 145 -Traditional Composition

CO1. Study paintings by combining human religious works with social, historical and subjects related to public life.

Course 146 -Drawing of Human figure

CO2. Students understand to draw human figures in different positions like - standing, reclining positions, wearing different types of clothes with different shades of life.

Course 147 -Folk Art

CO3. To study and depict folk art styles prevalent in different regions of India and also learn the use of water colours, poster colours and oil colour.

Semester II

Course 148 :Theory-History of European Painting

CO1. Students understand the various stages of development of European history and European painting.

Course 149-Portrait Painting

CO4. Using live models in front and study portrait illustration with different light shades.

Course 150 -Landscape Painting

CO5. Coming close to nature, depicting scenes of village, city, river, pond, mountain, religious and historical sights and also learn to use water colour, poster colour and various mediums of paintings.

Course 151 -Print Making

CO6. Understand designing and engraving it through woodcut, linocut, and imparting training in printing through its ink roller

Semester III

Course 152 :Theory-Criticism and Philosophy of Art

CO8. Understands theories of various concepts of art and beauty.

Course 153 -Copy from old master's painting

CO7. Copying of paintings made by the best painters of India and around the globe and studying various art styles and mediums.

Course 154 -*Life Style*

CO8. Live illustration of the live model from head to toe with different light shades and also learn the use of water colour, poster colour, oil colour and various techniques of painting.

Course 155 -*Tribal Art*

CO9. To study and depict the art styles of artist of tribal regions of different regions of India

Semester IV

Course 156 : Theory - *Modern Art of Europe*

CO10. Studying the theory of modern painting of Europe and various forms from beginning to contemporary art.

Course 157: Practical 1 -*Creative Portrait*

CO11. Learning creative portrait through various means after learning realistic illustrations.

Course 158: Practical 2 -*Creative Composition*

CO12. Using modern creative combination, doing righteous work and trying to develop their own style.

Course 159 : Practical 3 -*Mural Painting or Silk Screen Painting*

CO1. Studying the making of murals on the wall by various means.
CO2. Learning the use of silk screen printing techniques.

Course 160: Career Opportunities for Students with Ph.D. in

Drawing & Painting

**“Some people see things that are and ask why,
I see things that never where and ask why not.”**

Inspired by these famous lines of the maverick thespian George Bernard Shaw, the Department of Fine Arts has been continuously striving to promote innovation and creativity.

Ph.D. is one of the highest degrees of Higher Education Department. Ph.D. enhances the researcher's quality of learning and helps the holistic development of and development of research scholar. In addition, many experimental and theoretical art styles can be studied on historical, cultural, and artistic subjects. The unexplored and undiscovered spheres of art and the subjects which have not been put forth in front of the society are chosen as areas of research by the students. This goes a long way fostering innovation thereby benefitting the aficionados of arts and fine arts students.

After completing Ph.D. students are eligible to apply in educational institutions run by Department of Higher Education. Students can get employment as freelance journalist, as art historians and art reviewers.

Department of Economics
B.A. Economics Programme Outcomes

- PO1 To provide students a well-founded education in Economics.
- PO2 To provide structured curricula which supports the academic development of students.
- PO3 To provide a relevant curricula which prepares for and further studies in Economics.
- PO4 Developing the data collection skill, augmenting the knowledge of theories of growth and issues of economic planning.
- PO5 Creating awareness about changing Macro Economic policies and theories.
- PO6 Learning of Economics at graduation level are-intellectual skills, cognitive strategy, verbal information, intellectual skills, cognitive strategy are cognitive domain.

Programme Specific Outcomes
B.A. Economics

- PSO1 To provide students a well-founded education in Economics
- PSO2 To provide students with the opportunity to pursue courses that emphasizes qualitative and theoretical aspects of economics.
- PSO3 To provide well-resourced learning environment for Economics.
- PSO4 To provide higher studies in special field of Economics.
- PSO5 To provide structured curricula which supports academic development of students.

Course outcomes
B.A. Economics
B.A. I Year NEP

Course 161: Paper I- *Micro Economics*

Upon completion of Micro economics, students should be able to:

- CO1. Analyze about Traditional and Modern Definitions of economics.
- CO2. Understand about Methodology in economics.
- CO3. Perform supply and demand analysis to analyze the impact of economic events on Markets,
- CO4. Analyze the behavior of consumers in terms of the demand for products.
- CO5. Analyze the performance of firms under different market structures,

- CO6. Recognize market failure and the role of government in dealing with those failures,
- CO7. Explain how input markets work,
- CO8. Use economic analysis to evaluate controversial issues and policies
- CO9. Evaluate the factors affecting firm behavior, such as production and costs

Course 162 :Paper II -*Indian Economy*

- CO1. Understand Indian Economy, its potential of natural resources.
- CO2. Understand the importance, causes and impact of population growth and its distribution and relate them with economic development.
- CO3. Students can learn current situation of Indian economy and what are the benefits of Indian economy.

B.A. II Year

Course 163 : Paper I -*Macro Economics and*

Course 164: Paper II -*Public Finance/International Economics*

Understand the fundamentals of Micro Economics.

- CO1. Introduction to supply and demand and the basic focus that determine equilibrium in a market economy.
- CO2. Understand the framework for learning about consumer behavior and analyzing consumer decisions.
- CO3. Understand about firms and their decisions about optimal production.
- CO4. To solve micro economics problems.
- CO5. To understand introductory micro economic theories in a local, regional, national and international scenario.
- CO6. Understand about the international trade and their aims etc.

Department of Economics

M.A. Economics Programme Outcomes

- PO1 Students after completing post-graduation are ready to take up special studies in Economics. They go for higher studies Ph.D. etc.
- PO2 At the global level students are able to learn different activities related to Economics.
- PO3 Students learn about economic efficiency and the mechanism of competitive market leading to an efficient allocation of resources.
- PO4 Understands the impact of fiscal and monetary policy, use of deficits, change in money supply etc.
- PO5 Explain the marginality approach and justification of mathematical model to describe consumer and firm behavior and explain the process by which an economic theory becomes part of the body of knowledge of Economics.

Programme Specific Outcomes

M.A. Economics

- PSO1 To impart in depth knowledge to students about economic theory regarding utilization and allocation of resources including labour, national resources and capital.
- PSO2 To develop students understanding about market goods and services, their functions and how income is generated and distributed.
- PSO3 Students understand the in-depth knowledge in special field of their choice like Agriculture Economics, Financial Market, Development Economics, International Trade, Urban Economic etc.
- PSO4 To make students familiar with economic theories and their relevance, econometrics, quantitative techniques and applied research in a wide variety of field within economics.
- PSO5 Understand how the economy is influenced by economic policy, technological advances and demographic conditions.

Course outcomes M.A. Economics

Semester I

Course 167: Paper I -*Micro-Economics and Analysis*

- CO1. Understands the basic reasoning of economics.
- CO2. Make aware about how various economic agents behave optimally given the scarce economic resources and other constraints.

- CO3. Understand various economic issues and applied part of the economics.
- CO4. A comprehensive knowledge of micro economics will empower students to explain the social reality with better arguments and optimum solutions.

Course 168 : Paper II -*Macro-Economics*

- CO1. Student will be able to explain the concept of opportunity costs trade, of and benefits of economics.
- CO2. Students will learn the concept of fiscal and monetary policies and their effect on economy.
- CO3. Student demonstrate the knowledge of laws of supply and demand and equilibrium.
- CO4. Student will be getting a clear picture of circular flow model etc.
- CO5. Develop confidence and ability to express a particular view point.

Course 169 : Paper III -*Quantitative Methods*

- CO1. Students will be able to collect, analyze and interpret empirical data.
- CO2. Have introductory ideas about statistical methods and tools that are essential for the analytical study of economics.
- CO3. Have a better understanding about the quantitative aspects regarding research and economic analysis.

Course 170 : Paper IV -*Public Economics*

- CO1. Understand the use of taxes and public expenditure for promoting socially efficient resources, allocation and a desirable income distribution.
- CO2. Understand major actual policies and examples of issues currently on the political agenda.
- CO3. It explains the economics contents and trade-offs captured by the models.
- CO4. Student can identify and analyze policy problems in public economies.
- CO5. It discusses the assumptions, relevance and limitations of the models.
- CO6. Students can assess arguments appearing in the policy debate.

Semester II

Course 171 : Paper I -*Advance Economic Analysis*

- CO1. Develop ideas of the basic characteristics of Indian economic potential on natural resources.
- CO2. Understand the importance of causes and its impact on population growth and its distribution and relate them with economic development.

- CO3. Understand the importance of planning undertaken by government of India.
- CO4. Understand agriculture as a foundation of economic growth and development, analyze the progress and changing nature of agriculture sector and its contribution to Indian economy as a whole.

Course 172: Paper II -*Monetary Economics*

- CO1. The study of this paper will strengthen the understanding about money and monetary policies in India.
- CO2. Students understand Banking system in India, types of Banks, new trends in commercial banking.
- CO3. IMF and World Bank are playing remarkable role for growth of the countries all over the world which students understand in detail.
- CO4. Understand inflation - measurement and types of inflation effects of inflation, relationship between inflation and unemployment.

Course 173 : Paper III -*Research Methods*

- CO1. Students understand the overall process of research study.
- CO2. Understand the primary characteristics of quantitative and qualitative research.
- CO3. Student should be able to identify a research problem in a study.
- CO4. Students apply suitable statistical methods to research studies.
- CO5. Students execute sampling, collection, and preservation techniques.
- CO6. Students computes statistical problem.

Course 174 : Paper IV -*International Economics*

- CO3. Understand the models of supply and demand within the context of international trade theory analysis.
- CO4. Interpret the new trade theories.
- CO5. Understand liberalization of world trade and international trade.
- CO6. Analyze exchange trade system.
- CO7. Understand international monetary system etc.

Semester- III

Course 175 : Paper I -*History of Economic Thought*

- CO1. Student recognize the socio economic condition of the country.
- CO2. Comprehend emerging paradigms and observation with its reason.
- CO3. Learn historical aspects about economic thinkers.

CO4. Students develop a strong sense of identity.

CO5. Describe and analyze national schools of mercantilism in their theory and practice.

Course 176: Paper II -*Indian foreign trade and India's international Institution*

CO1. Understand foreign trade in India and government policies about foreign trade through which how government earns through excise duties.

CO2. Understand how to control the diplomatic relations between the countries.

CO3. Student learns the composition of foreign trade.

Course 177 : Paper III -*Labour Economics (Optional)*

CO1. This paper makes students aware of different theories on labour and employment from the point of view of economic research.

CO2. It provides a detailed analysis on the latest development of labour market in developing countries with reference to India.

CO3. This paper lays a special emphasis on informal sector and the problem of labour in India.

CO4. This paper also identifies relevant issues on economic research on the aspects of labour and development.

Course 178 : Paper III -*Environment Economics (Optional)*

CO1. Students will be able to become familiar with the debates on approaches on linkage between natural environment and human economy.

CO2. Students will know contemporary environmental problems.

CO3. Students understand various methods of measurement of environmental resources.

CO4. Students know the relation between environment, economic development, population growth, environmental law and their implementation.

CO5. Students gain knowledge through various model failures environmental problem.

Course 179 : Paper IV -*Industrial Economics (Optional)*

CO1. This is course for industrial economics deal with basic concepts of industry, market products, industrial location and industrial marketing.

CO2. It provides knowledge about the industrial development and employment chances created and highlights the inter linkages between

industrialization and agriculture industrialization, productivity industrialization and foreign trade.

- CO3. Student knows the reason for the industrial location and bring out the approaches for the development of backward districts.
- CO4. List out the trend in industrial productivity, labour productivity in India and the quality control measures adopted.
- CO5. Explain the role of industrial policy and financial matters with regards to the industrial sickness and capacity utilization in industry.
- CO6. Gives an overview of different management systems and the rationalization of industries.

Course 180: Paper IV-*Economics of Insurance (Optional Paper)*

- CO1. Students will be able to understand the concepts and principles of insurance.
- CO2. They know the various types of insurance and insurance business in India.
- CO3. They will become aware of insurance legislation in India.
- CO4. Students studying economics enrich their knowledge on financial matters and management.
- CO5. They will be able to analyze the tax system and GST etc.
- CO6. The students will be able to understand the local body system in their living areas.

Semester- IV

Course 181: Paper I -*Economics of Growth and development*

- CO1. Student understands concept of growth and development, problem of under developed nations.
- CO2. Understand themes of growth - Ricardian, Marxial.
- CO3. Theory of unlimited supply of labour, themes of unbalanced growth.

Course 182 : Paper II -*India's Economic Policies and issues*

- CO1. Students develop ideas of the basic characteristics of the Indian economy.
- CO2. Understands the growth of business and lay policies to control trade cycle and development of strategies in India.
- CO3. Students understand the exact economic policies and issues of the country as well as the world.

Course 183: Paper III -*Agricultural Economics (Optional)*

- CO1. Understand basic economics concept, business decision making and agricultural and natural resource concept.
- CO2. Understand economic decision making
- CO3. Understand the important causes and impact of population growth and its distribution and relate them with economic development.

Course 184: Paper III -*Tourism Economics*

- CO1. Students can get employment by setting up tourism industry by understanding tourism policies.
- CO2. Students learn to analyze the impact of tourism in the Indian economy.
- CO3. They can also understand the functions of tourism finance department and tourism Development Corporation of India for tourism development in India.
- CO4. It helps to understand tourism policy and incentives as well.

Course 185: Paper IV -*Regional Economics (Optional)*

- CO1. Students understand regional economy through various analysis & theories: Von thentheory, location theory of hover, weber's theory of Industrial location etc.
- CO2. Students can know about regional income, it's components and estimation.
- CO3. The students will enable to understand the regional account, commodity flow and money flow analysis.

Course 186 : Paper IV -*Demography Economics (Optional)*

- CO1. Students understand demography through various analyses: Malthusian, theory population growth optimum theory of population.
- CO2. Students understand demographic measurement like fertility and mortality rates, population education in India.
- CO3. They also understand the difference between and internally displaced person, an asylum-seeker, and refugee.

Course 187: Department of Economics Outcomes of Ph.D. Course

After completion of Ph.D. degree, students assimilate all the detail knowledge of the subject. Students of economics will be able to produce and publish original research papers appropriate for peer reviewed academic journals.

Our aspirants communicate and disseminate knowledge of economics effectively in careers within and outside academia. Students will be able to understand and replicate contemporary findings within economic research. Students of economics can be appointed as professors in colleges and universities. Aspirants can open their own advisory and consultancy services. Thus Ph.D. is very useful students of economics.

Department of English
B.A. English literature
Programme Outcomes

English Literature is a “magic casement” opening an entire new world of enormous opportunities and endless possibilities.

The scope of this course is immense. It offers plethora of opportunities to the students like research, teaching, journalism etc.

- PO1 Literature broadens the learning spectrum of the students by introducing them to different cultures and social structures.
- PO2 After the completion of course the students are ready to take up the special studies in language and literature.
- PO3 Students go for higher studies like M.A. in English.
- PO4 Student of this course develops a sense of humanity with learning of prose/drama/poetry and fiction.
- PO5 Reading literature augments vocabulary, comprehension and writing skills.
- PO6 Build confidence in handling of English language.
- PO7 Inculcates feelings of togetherness, empathy and harmony.
- PO8 Enhances the sense of appreciation towards language and human nature.
- PO9 Acquaint the student with the nuances of literature.

Programme Specific Outcomes
B.A. English Literature

- PSO1 Students develop intellectual flexibility, creativity and cultural literacy so that they may engage in lifelong learning.
- PSO2 Students develop the acumen of effective reading and writing skills.
- PSO3 They can write short story, compose verse, become script writer.
- PSO4 Work as Journalist, freelance writer, anchor, commentator, translator, educator.
- PSO5 Expand the horizon of thinking.
- PSO6 The programme enables learners to appreciate a wide range of literary or creative texts.
- PSO7 To sharpen critical, creative and analytical skills.

Course outcomes
B.A. English Literature

B.A. 1st Year NEP

Course 188: Paper I -*Study of Poetry*

- CO1. Students are acquainted with poetry and its various forms.
- CO2. To develop a taste for poetry reading and writing.
- CO3. To develop aesthetic sense of students.
- CO4. To develop imagination in students.
- CO5. To enable students to read the poem with correct rhyme and rhythm.
- CO6. Use proper pattern of intonation.
- CO7. Read biographies and literary compositions of great poets like Shakespeare, Milton, Pope, Shelley, Keats etc.

Course 189: Paper II- *Study of Drama*

Students learn :

- CO1. Drama- its origin, its types, and various dramatic devices.
- CO2. It helps to enhance language and communication skills.
- CO3. It develops emotional intelligence.
- CO4. It nurtures creativity.
- CO5. It augments performance skills.
- CO6. Students acquire analytical skills to make critical and rational judgments.
- CO7. Understanding dramatic art forms and the ability to express themselves imaginatively and effectively.
- CO8. Read the biographies and plays of eminent thespians like- Shakespeare, Sheridan, Shaw, W.B. Yeats etc.

B.A. II Year

Course 190: Paper I - *Drama*

- CO1. Student learns Drama- its origin, its types, and various dramatic devices.
- CO2. Drama helps to enhance language and communication skills.
- CO3. Drama develops emotional intelligence.
- CO4. Drama nurtures creativity.
- CO5. Drama augments performance skills.
- CO6. Students acquire analytical skills to make critical and rational judgments.
- CO7. Understanding dramatic art forms and the ability to express themselves imaginatively and effectively.
- CO8. Read the biographies and plays of eminent thespians like- Shakespeare, Sheridan, Shaw, W.B. Yeats etc.

Course 191: Paper II- *Fiction*

- CO1. Students understand the definition, structure, history of fiction.
- CO2. Understands the elements of novel.
- CO3. Explain themes and plot construction.
- CO4. Understands the nuances of characterization
- CO5. Describe and explain setting of novels.
- CO6. Relate the novel to the real life.
- CO7. Read the novels of great novelist - Jane Austen, Dickens,

Department of English **M.A. English literature Programme outcomes**

The study of literature improves sensibility and provide with a certain depth of conception. The semester system makes the students get a better Idea of the subject. It makes them intellectually sharpen and innovative

It augments the students ability to understand the nuances of literature and allures them to study more thereby broadening their learning spectrum.

- PO1 Students are ready to take up the special studies in literature. They go for higher studies like M.Phil., Ph.D. and D.Lit.
- PO2 At the global level the students are able to learn English as a language.
- PO3 Students of this course develop critical thinking.
- PO4 Develop the habit of effective reading and writing skills.

- PO5 Builds confidence in handling of English language.
- PO6 Literature teaches universal human experiences.
- PO7 Students learn about other cultures and places which expands their horizons.

Programme specific Outcomes
M.A. English Literature

By the end of the programme the students should be able to-

- PSO1 Their course helps students to explore the entire range of human experience in fiction, poetry drama and prose.
- PSO2 Develop four language skills LSRW.
- PSO3 Students focus on to study the influential writings from British and American literature.
- PSO4 Increases confidence in speaking publically and listen thoughtfully and respectfully.
- PSO5 Students develop the art of comprehend the literal and figurative uses of language.
- PSO6 Appreciate Indian literature in English and its uniqueness.
- PSO7 Critically interact according to the context.
- PSO8 They are taught to find symbols, themes, learn about characters and their importance.
- PSO9 Literature gives them the ability to think outside the box.
- PSO10 Literature contributes to a student forming and developing their own belief, opinions and views.
- PSO11 The study of literature helps students see the people world-wide places and things, events etc. through different eyes and different view point.
- PSO12 Students accurately and precisely communicate- both in speaking and writing.
- PSO13 Demonstrate the thorough command over English language.

Apart from these students of English literature can also find jobs in various fields like Translation, Speech writing, Script writing, Teaching, Journalism etc.

Course outcomes M.A. English Literature
M.A. Semester I/II

Course 194: Paper I -Poetry

- CO1. To recognize poetry from a variety of cultures, language and historic periods.

- CO2. To recognize rhythms, metrics and other musical aspects of poetry.
- CO3. To identify figures of speech, symbolism, imagery, theme.
- CO4. Understanding the biographies and poetic style of poets.
- CO5. Poetry boosts memory, creativity and encourages self-reflection. It helps the students to think out of the box.
- CO6. Poetry can have a positive impact on the social, moral and emotional learning of the students.
- CO7. Poetry expresses through careful control of sound and rhythm.
- CO8. Poetry helps students to understand and appreciate the world around them. Poetry teaches them to live nobly.

Course 195 : Paper II -Drama

- CO1. Gain knowledge in the development of English Drama from 16th Century to 21st Century viz.. Shakespearean Drama, Shavian Plays, one-Act Plays, Absurd Plays etc.
- CO2. Acquire the ability to identify with characters and actions through the role playing.
- CO3. Develop sufficient, confidence and ability to express a particular view point.
- CO4. Students will be able to manipulate body movements and facial expressions to convey appropriate emotion and meaning in dramatization.
- CO5. Drama enriches the basic speech competencies of the students which stem from an understanding of the fundamental performances of the actors.
- CO6. Drama enables students to pursue theatre related careers and provide direction in the development of professional skills.
- CO7. Drama enhances students critical thinking skill within an active learning environment.
- CO8. Conceptualize various types of Drama viz.. Tragedy, Comedy, Farce, Melodrama, Historical Place, through the prescribed text and analyze the effect they create in the students.

Course 196: Paper III -Fiction

- CO1. Learn the elements of fiction-technique, plot, character, setting, style, point of view.
- CO2. Conceptualize the genre of Novel and its types viz..., Allegorical, Gothic, Historical, Epistolary, Picaresque, and Psychological.

- CO4. Enhances reading skills and makes them understand how to represent their experience and ideas critically, creatively and persuasively through the medium of language.
- CO5. Understand historical, social background of the novelist.
- CO6. Novelist unique style of writing helps student to enhance their creative skills.
- CO7. Students learn about different cultures, ethos and milieu.
- CO8. Students learn human values and pattern of behavior.

Course 197 : Paper IV -Prose

- CO1. Gain knowledge of eminent writers- Bacon, Lamb, Addison, Gandhi, Nehru, Vivekananda etc.
- CO2. The students can examine the issues discussed in the text in the socio-historic and cultural context.
- CO3. Understand the prose writers background, biographies and their works.
- CO4. Student learns to arrange ideas in an organized manner.
- CO5. Students develop their imagination by reading different styles of essays prescribed in the course.
- CO6. Exposure to the style of essay writing.
- CO7. To provide opportunities for self-expression.

Semester III/IV

Course 198 : Paper I -Critical Theory

- CO1. This course gives an insight into the functions and characteristics of literature.
- CO2. Students learn to critically analyze the literary works.
- CO3. Students are introduced to the basics of literary criticism.
- CO4. Furnishes a background of practical criticism.
- CO5. Enhances the fluency of language, presentation skills and creative writings.
- CO6. Students develop a skill in applying various literary theories in interpreting a specific text.
- CO7. Learn literary terms and the various streams of literary criticism.

- CO8. To learn interdisciplinary nature of contemporary criticism and develops concerned skills.
- CO9. Students inculcate literary, aesthetic and critical awareness of diverse cultures and literary creations.
- CO10. Students develop a wholesome vision of life.

Course 199 : Paper II -*English Language*

- CO1. Learns the definition, characteristics and development of language.
- CO2. Know the process of beginning and growth of English language.
- CO3. The students are introduced with various innovative ways of using English language in verbal and non-verbal communications.
- CO4. Conceptualize about the relation between language and literature.
- CO5. The students are able to write clearly, effectively and creatively thereby improving their writing style.
- CO6. Students Identify and use the figures of speech.
- CO7. Students develop various linguistics skills.
- CO8. Learn sound system (Phonetics).
- CO9. Able to learn pronunciation and grammar.

Course 200: Paper III -*Indian Writings in English*

- CO1. The students are introduced with the unique features of Indian Writing in English.
- CO2. Students identify the major genres in Indian Writing in English.
- CO3. The students are introduced with the use of myth in Indian Writings in English and its contemporary relevance.
- CO4. Demonstrate through discussion and writing, and understanding of significant cultural, social, caste based issues presented in Indian English Literature.
- CO5. Students understand how well the Indian culture is reflected in literature.
- CO6. Students are able to learn about the emergence of Indian writings in English as a distinct field.
- CO7. Interpret the works of great Indian writers, like Rabindranath Tagore, SarojiniNaidu, GirishKarnad, Arundhati Roy, A.K. Ramanujan, R.K. Narayan.
- CO8. They understand the various cultures, traditions and nuances of Indian tales, mythologies and knowledge.

Course 201: Paper IV -*American literature*

- CO1. To study the historical background of American literature.
- CO2. Paves the way to know the life, culture, language and society through the literary works of the eminent American writers.
- CO3. To understand the various aspects of American society through a critical examination of the literary texts representing different periods and culture.
- CO4. Learn about great poets, dramatist and essayist of America.
- CO5. Learn about Indo-American ties through literature of various genres.

Course 202 :Career Opportunities for Students with Ph.D. in English

The degree of Ph.D. is a primarily a research degree which needs a faculty of analysis and progression in the given area of subject. Now a days it is not only expensive in terms of money/fee but also engages the research scholar for a long time.

The career avenues for a Ph.D. holder are many in terms of opportunities and growth. Some of them may be cited as below:

- Analytical mind and progression of thought process.
- Career opportunities are enhanced and a wide spectrum of possibilities are visualized.
- The degree helps in setting employment into the area of higher education to work as a faculty member in an institution.
- Such scholars are also needed in media, especially modern news media as reporters (subject based) and editors specially belonging to concern areas.
- These scholars have better opportunities in the field of publication division.
- They have opportunities in the advertising agencies as an advertising copywriter.
- Other opportunities included technical writers, English language/literature teachers in schools and colleges, correspondents, broadcast news analysts, etc.

Department of Geography

B.A. Geography

Programme outcomes

After Completing B.A. Programme in Geography, student will be able to:

Knowledge outcomes:

- PO1 Demonstrate knowledge of physical and cultural features of the earth and locate them on a map
- PO2 Know about the basic disciplines of Geography and its sub branches.
- PO3 Know the basic concepts and terminologies used in geography like interior of the earth, plate tectonic, sea floor spreading, population growth, disasters, composition and structure of atmosphere, hydrosphere, etc.
- PO4 Differentiate between minerals and rocks, weather and climate, interior of the earth, basic industries, farming etc.
- PO5 Get information about the causes and effects of local, national and international problems like global warming, acid rain, ozone depletion, soil degradation, deforestation etc.

Skill Outcomes:

- PO6 Carry out surveying and learn the art of map making and prepare maps for the areas with the help of surveying techniques.
- PO7 Gain knowledge of quantitative methods and their ability of use statistical and cartographical methods to solve geographical problems.
- PO8 Construct various types of projections and scales as per requirement of the study.
- PO7 Collect primary and secondary data in the field.
- PO8 Apply various statistical formulas to analyze data.
- PO9 Use cartographic techniques with simple software MS Excel.
- PO10 Handle topographical and weather maps and interpret them.
- PO11 Identify types of rocks.
- PO12 Know about geographical information system (GIS) and remote sensing (RS)

Programme Specific Outcomes B.A. Geography

- PSO1 Students learn about formation of landforms and identify various landforms around them.
- PSO2 Students learn about various economic activities of man and their spatial temporal distribution.
- PSO3 Students learn about ecosystem and the biosphere with a view to conserve natural system and maintain ecological balance.
- PSO4 Students acquire knowledge of basic surveys and map making.

PSO5 Students know about geographical socio-economic and political background of India.

PSO6 Students apply geographical knowledge in their day to day life like being alert about disasters, weather and climate data.

Course Outcomes B.A. 1 year NEP (Geography)

Course 203: Human Geography : Environment and Culture

Upon the Completion of the course, the student will be able to:

CO1. Discuss and describe the major concepts and key principles of Human

CO2. Geography including place, space, scale and landscape.

CO3. Appreciate the diversity of the cultural backgrounds and places.

CO4. Approach problem solving from a geographic perspective by understanding the role location plays.

Course 204: Physical Geography - Lithosphere (Geomorphology)

After the completion of course, the students will have ability to :

CO1. Understand the internal structure of the earth, rocks that compose it and forces within the earth that act to deform it.

CO2. Learn about the contribution of ancient Indian scholars in the development of Physical Geography.

CO3. Analyze how the natural and anthropogenic operating factors affect the develop of land forms.

CO4. Understand about the denudation processes that unceasingly act at the earth's surface to shape land forms and reduce relief.

CO5. Assess the role of structure, stage and time in shaping the land forms.

Course 205 : Cartographic Techniques (Practical paper 1)

After the completion of course, the students will be able to:

CO1. Develop hands on skills in diagrammatic representation of data.

CO2. Comprehend thematic mapping techniques, its cartographic representation and interpretation.

CO3. Take up Cartography as a profession.

Course 206: General Cartographic (Practical paper 2)

After the completion of course, the students will be able to:

- CO1. Learn the principles of Map Design, Map Reading and Construction of Scale.
- CO2. Create Professional and aesthetically pleasing maps through thoughtful application of Cartographic Conventions.
- CO3. Comprehend the principles and types of Surveying and learn the Chain and Tape survey.

B.A. II Year Course Outcomes

Course 207: Paper I -*Physical Geography (Atmosphere and Hydrosphere)*

After the completion of course, the students will be able to:

- CO1. Understand the elements of weather and climate, different atmospheric phenomena and climate change.
- CO2. Understand how atmospheric moisture works.
- CO3. Understand the importance of the atmospheric pressure.
- CO4. Learn the interaction between the atmosphere and the earth's surface.

Course 208: Paper II -*Economic Geography*

After the completion of course, the students will be able to:

- CO1. Understand the concept of economic activity. Gain knowledge about different types of economic activity.
- CO2. Assess the significance of economic geography.
- CO3. Analyze the factors of location of agriculture and industries.
- CO4. Map and interpret data on production, economic activities, transport network and flows.

Course 209 : Practical – *Geography*

After the completion of course, the students will be able to:

- CO1. Recognize the importance and application of statistics in Geography.
- CO2. Understand the weather instruments.
- CO3. Learn to use tabulation of data
- CO4. Interpret hydrological and rainfall dispersion graphs and diagrams.
- CO5. Learn to use various meteorological instruments.
- CO6. Gain knowledge about Indian daily weather report.

Department of Geography
M.A. Geography
Programme Specific Outcomes

After completion of the Master of Arts in geography, Students will be able to demonstrate the following:

- PSO1 Compare and contrast the theories, Philosophies and concepts in the discipline of geography, including unifying themes of spatial patterns and patterns and structures, the interrelation between people and places, and the interactions between nature and society.
- PSO2 Demonstrate an advanced understanding of and ability to differentiate among the various methodologies used in geographic research.
- PSO3 Acquire, analyze, evaluate, interpret and critique geographic data and/or research.
- PSO4 Identify and assess how geographic concepts apply in the workplace and in everyday life to solve real world problems.

M.A. Ist Semester
Course Outcomes

Course 213 :Paper I – *Geomorphology*

After the completion of course, the students will be able to:

- CO1. To understand the association between geomorphologic landform concepts and process.
- CO2. To critically evaluate and connect information about geomorphic process.
- CO3. To provide a theoretical and empirical framework for understanding landscape evolution and characteristic of individual types of geomorphology.
- CO4. Explain basic principles for development of landforms through time.
- CO5. Make an initial geomorphological fieldwork.
- CO6. Learn the techniques of geomorphological analysis.
- CO7. Knowledge of surface resultant landforms.

Course 214 : Paper II - *Economic Geography*

The students will be able to appreciate that geography and space matter in economy.

- CO1. The students well be able to identify some key issues that economic geography engages with.

- CO2. The students will realize the relevance of economic geography for analyzing contemporary societies and economics.
- CO3. Role of information in economic activities, dominance of knowledge in economic activities.
- CO4. Globalization of economic system.
- CO5. Economy and economic frame work of modern urban systems.

Course 215: Paper III - *Geography of India*

The students would engage with a critical understanding of the evolution growth and characteristics of geography as a science in India.

- CO1. How higher education, policies have impacted of status of geography in India would be an important component to add depth of the analysis.
- CO2. Student would be introduced to geographers of India (their life and works) with an aim to gather and purpose and works of key contributors to geography of India.
- CO3. Understanding of the evolution and growth of geography as a science in India.
- CO4. Relevance of geographic knowledge in India at the global level.
- CO5. Disparities and differences in the production of geographical knowledge.

Course 216: Paper IV - *Evaluation of Geographical Thought*

The students will be able to get :

- CO1. A thorough knowledge of the growth, development. Philosophical influences and relevance of geography from ancient time to present time.
- CO2. Knowledge of emerging areas and new theories within the discipline.
- CO3. An appreciation of discipline's dynamic and inclusive nature.
- CO4. Knowledge of disciplinary history and evolution.
- CO5. Knowledge of important philosophical influences on the discipline.
- CO6. Knowledge of ontological term and new social theories in geography.

M.A. II Semester Course Outcomes

Course 217: Paper I - *Climatology*

- CO1. The broad objective of the course is to introduce to the students the fundamentals of atmospheric phenomena global climate systems and climate change.
- CO2. The atmosphere and climate are a critical part of the earth system, and climate variability and change are central to the issue of current and future global environment change.
- CO3. To grasp the techniques for modeling the climate, covering both theoretical and technical aspects.
- CO4. Know something of the way various human activity are increasing emissions from the natural greenhouse gases.
- CO5. Understand the meaning of global atmospheric circulations and disturbances, world climate system, climate variability and change

Course 218 :Paper II - *Resource Management*

- CO1. Awareness about resource availability accessibility, utilization, its use and misuse.
- CO2. Spatial distribution of natural resources.
- CO3. Resource management and governance
- CO4. Deep Understanding of concept and approaches of natural resource management.
- CO5. Knowledge of availability and spatial distribution of natural resources.
- CO6. Socio-economic, political and technological inputs in resource management.

Course 219: Paper III - *Economic Geography*

The students will be able to appreciate that geography and space matter in economy.

- CO1. The students well be able to identify some key issues that economic geography engages with.
- CO2. The students will realize the relevance of economic geography for analyzing contemporary societies and economics.
- CO3. Role of information in economic activities dominance of knowledge in economic activities.

- CO4. Globalization of economic system.
- CO5. Economy and economic frame work of modern urban systems.

Course 220 : Paper IV - *Geography of Environment*

- CO1. Various dimensions of the ecosystem, their spatial distribution.
- CO2. To introduce the student to the concept of biogeography.
- CO3. Interaction between living organisms and non-living organism.
- CO4. Detailed exposure to the concept of ecosystem, processes, theories and concepts.
- CO5. In depth knowledge of anthropogenic interventions and impacts, conservation, strategies, and planning.
- CO6. Evaluation and achievement of different environmental Programmes, policies and legislations.

M.A. III Semester

Course 221: Paper I – *Oceanography*

To give an overview of the science of oceanography and how it is practiced.

- CO1. To integrate all specific concept of oceanography into a multidisciplinary analysis of the earth.
- CO2. To show that in the complexity of the "Water-World" lies beauty control, and vulnerability.
- CO3. Predict distribution of organisms based on physical and chemical hydrographic data.
- CO4. Provide examples of the Interdisciplinary nature of oceanography.
- CO5. Explain interrelationships of oceans to other Earth system.

Course 222: Paper II - *Urban Geography*

This course attempts to acquaint the students with urban issues and components.

- CO1. The course examines the question related to urban poverty and slums in India.
- CO2. It is also critically evaluates the infrastructure development and Programmes & policies aimed at sustainable urban development and strategies.
- CO3. Conceptual background of urban development and management.
- CO4. Urban poverty and basic services.
- CO5. Urban infrastructure and management.

Course 223 : Paper III - *Geography of Tourism*

- CO1. Understanding the different dimensions of tourism and their interrelationships.
- CO2. Learn recent trends and dynamics of tourism in the context of globalization and sustainability.
- CO3. Explain the location factors of tourism activity.
- CO4. Develop critical thinking skills about the processes of tourism development in relation to the principles of social and environmental ethics.
- CO5. Demonstrate interest in the knowledge of the reality and evaluation of tourist areas.

Course 224: Paper IV - *Agricultural Geography*

- CO1. This course attempts to introduce the students to the nature and origin of agriculture and its regions.
- CO2. The course examines the questions related to agricultural development and productivity in India.
- CO3. It also critically evaluates and environmental consequences and emerging perspective and policies and interventions aimed at sustainable agriculture.
- CO4. The student will be able to understand and analyze the historical perspective of agriculture.
- CO5. The student will be able to analyze the agriculture development and productivity and its impacts on various sectors.
- CO6. The students will be able to get updated knowledge.

M.A. IV Semester Course Outcomes

Course 225: Paper I - *Research Methods and Techniques in Geography*

- CO1. This course is an attempt to introduce the students to the basic knowledge related to geographical field research design.
- CO2. The course examines the questions related to data collection, methods and its analysis.
- CO3. It also critically evaluates the projects based on field work.
- CO4. The students will be able to understand basic concepts of field research methods and research design in geography.
- CO5. Identify and formulate of research problem.

- CO6. Conceptual background of research problem.
- CO7. Processing and analysis of data and writing projects.

Course 226: Paper II - *Geography of Population*

- CO1. This course intends to orient the students towards interdisciplinary on population issues at different geographical scale.
- CO2. It will acquaint the candidate to appreciate the role of spatial perspectives toward showcasing population changes and its impact on the economy, society, environment and politics at diverse geographical spheres.
- CO3. Understanding of fundamental issues and concepts of population, inter-relationship with other social sciences disciplines including geography.
- CO4. Understanding of population composition: age and sex, education, marital status, rural-urban, population theories.
- CO5. Basic concepts of immigration, determinants and consequences, regional patterns.

Course 227: Paper III - *Biogeography*

- CO1. To introduce the student to the concept of biogeography.
- CO2. To introduce the components, interpretation and application of biogeography.
- CO3. Interaction between living organisms and non-living organisms.
- CO4. Students will get familiarized with interface between biology & ecology.
- CO5. Able to understand geography converging and forming our biosphere.
- CO6. Students will be able to discuss about ecosystem services.
- CO7. Able to apply interaction of biotic and abiotic resources.

Course 228: Paper IV - *Political Geography*

- CO1. To shape adequate, robust and credible perceptions about political territorial structure of the contemporary world and the reasons and consequences of its transformations.
- CO2. Identifies the difference between territorial and non-territorial polities.
- CO3. Knows the current state of affairs in the theoretical debate on the influence of geography as state institutions and prosperity.

**हिन्दी विभाग
कार्यिका परिणाम विवरण**

पाठ्यक्रम : स्नातक, साहित्य

कार्यिका परिणाम

संघीय/राज्य स्तरीय प्रशासनिक सेवा की प्रतियोगिता, कनिष्ठ अनुवादक की प्रतियोगी परीक्षा, लिपिकीय परीक्षा आदि क्षेत्रों में जाने की अर्हता। स्नातकोत्तर हिन्दी और भाषा विज्ञान में जाने की अर्हता, बी.एड. पाठ्यक्रम में प्रवेश करने की अर्हता, स्वरोजगार की दृष्टि से उपयुक्त।

कार्यिका के विशिष्ट परिणाम—

PSO1 साहित्यिक आलोचनात्मक विवेक के विकास में उपयोगी।

PSO2 उच्चतर शिक्षा प्राप्त करने में उपयोगी, मानविकी के अन्य विषयों की समझ प्राप्त करने में उपयोगी।

**पाठ्यक्रम—परिणाम
स्नातक प्रथम वर्ष**

प्रश्नपत्र 1 हिंदीकाव्य

- CO1. इस पाठ्यक्रम के अध्ययन से विद्यार्थी हिंदी काव्य की सुदीर्घ परंपरा से परिचित होंगे।
- CO2. प्रसिद्ध रचनाओं के अध्ययन से देश की सामाजिक, सांस्कृतिक एवं राष्ट्रीय पृष्ठभूमि से सुविज्ञ होंगे।
- CO3. विद्यार्थियों के व्यक्तित्व का विकास होगा, उनकी जीवन दृष्टि का विस्तार होगा जिससे वह जीवन एवं जीवन मूल्यों को समझने में सक्षम होंगे।
- CO4. रचनात्मक कौशल में दक्षता होगी जिससे उन्हें रोजगार की अनेक संभावनायें मिलेंगी।

प्रश्नपत्र 2 कार्यालयीन हिंदी एवं भाषा कम्प्यूटिंग

- CO1. इस कोर्स के माध्यम से विद्यार्थी कार्यालय के कार्यों की मूलभूत जानकारी एवं कार्य शैली से परिचित हो सकेंगे जिससे वे कार्यालयीन कार्य करने में सक्षम होंगे।
- CO2. नई तकनीकी के माध्यम से ज्ञानविज्ञान के क्षेत्र में विशेषज्ञता प्राप्त कर सकेंगे।
- CO3. भाषा कम्प्यूटिंग में दक्षता होगी तथा रोजगार प्राप्ति के अवसर मिलेंगे।

स्नातक: द्वितीय वर्ष:

प्रश्नपत्र 1 हिन्दी गद्य

- CO1. विद्यार्थी हिन्दी गद्य साहित्य एवं प्रमुख रचनाओं से परिचित होंगे।

CO2. विद्यार्थियों में साहित्य अध्ययन से संवेदनशीलता एवं मानवीय गुणों का विकास होगा।

प्रश्नपत्र 2 अनुवाद विज्ञान

CO1. विद्यार्थियों में अनुवाद कौशल का विकास होगा।

CO2. भारतीय एवं विश्व भाषा साहित्य के अनुवाद क्षेत्र में रोजगार के अवसर प्राप्त होंगे।

CO3. वैश्विक प्रतिस्पर्धात्मक वातावरण के साथ सामंजस्य बनाने में सक्षम होंगे।

पाठ्यक्रम: स्नातकोत्तर, साहित्य

कार्यिका परिणाम— शोध के क्षेत्र में जाने की अर्हता।संघीय/राज्यस्तरीय प्रशासनिक सेवा की प्रतियोगी परीक्षा उत्तीर्ण करने में विशेष सहयोगी, वरिष्ठ अनुवादक और हिन्दी अधिकारी पद के लिए अनिवार्य अर्हता, उच्च शिक्षा में रोजगार प्राप्त करने के लिए आवश्यक।

कार्यिका के विशिष्ट परिणाम:

PSO1 ज्ञान के क्षेत्र में योगदान करने की योग्यता।

PSO2 मानविकी के विभिन्न क्षेत्रों में जाने की दृष्टि से सहयोगी।

स्नातकोत्तर: प्रथमसेमेस्टर / स्नातकोत्तर: द्वितीय सेमेस्टर

पाठ्यक्रम—परिणाम

प्रश्नपत्र 1 प्राचीन एवं मध्यकालीन काव्य तथा उसका इतिहास

प्रश्नपत्र 2 आधुनिक हिन्दी गद्य और उसका इतिहास

प्रश्नपत्र 3 भारतीय एवं पाश्चात्य काव्यशास्त्र

प्रश्नपत्र 4 प्रयोजनमूलक हिन्दी

CO1. मध्यकालीनबोध, संस्कृति और विचार के महत्त्व को समझने की दृष्टि से उपयोगी।

CO2. रंगकर्म के ज्ञान में विशेष सहायक, उपन्यास जैसी विधा के अध्ययन से आधुनिक युग की समझ विकसित करने की दृष्टि से महत्त्वपूर्ण।

CO3. भारतीय साहित्य सिद्धांत के गंभीर ज्ञान में सहयोगी।

CO4. रोजगार की दृष्टि से भाषा ज्ञान प्राप्त करने में सहयोगी।

CO5. आधुनिक काव्य के विस्तृत ज्ञान की दृष्टि से महत्त्वपूर्ण।

CO6. भाषा वैज्ञानिक अध्ययन के द्वारा भाषा की सूक्ष्मता का अध्ययन।

CO7. साहित्य के इतिहास के ज्ञान की दृष्टि से उपयोगी।

CO8. उपन्यासों के अध्ययन के द्वारा आधुनिक भारतीय यथार्थ की समझ में सहायक।

स्नातकोत्तर: तृतीय सेमेस्टर / स्नातकोत्तर: चतुर्थ सेमेस्टर:
पाठ्यक्रम-परिणाम

ब्वनतेम 239रू प्रश्नपत्र 1 आधुनिक हिन्दी काव्य और उसका इतिहास

ब्वनतेम 240 रू प्रश्नपत्र 2 भाषा विज्ञान एवं हिन्दी हिन्दी भाषा

- CO1. मध्यकाल के साहित्यिक सांस्कृतिक उत्कर्ष को समझने की दृष्टि से महत्त्वपूर्ण।
CO2. गद्य-ज्ञान की दृष्टि से उपयोगी।
CO3. कहानी और निबन्धों के अध्ययन के द्वारा आधुनिक युग की समझ के विकास में उपयोगी।
CO4. पाश्चात्य सैद्धान्तिकी की समझ में सहयोगी।
CO5. जनसंचार माध्यमों की अध्ययन और अनुवाद सम्बन्धी ज्ञान के द्वारा छात्रों को रोजगारोन्मुखी बनाने की दृष्टि से उपयोगी।
CO6. आधुनिक काव्य-विवेक के विकास में उपयोगी।
CO7. हिन्दी भाषा की गहन समझ की दृष्टि से महत्त्वपूर्ण।
CO8. आधुनिक साहित्य के इतिहास के अध्ययन की दृष्टि से उपयुक्त।
CO9. प्रेमचन्द-साहित्य के अध्ययन के द्वारा भारतीय ग्रामीण समाज की समझ के विकास में उपयोगी।

विषय

“पी एच-डी. की उपाधि के पश्चात् छात्र के पासअपनेकैरियर के लिए उपलब्ध
बहुआयामी विकल्पक्याहैं?

किसी भी विषय मेंजब एक छात्र पी.एच-डी. उपाधि हेतु प्रयत्नरत रहता है, तब उसके पास सब से प्रमुख विकल्प होता है, विश्वविद्यालय अथवा किसी महाविद्यालय में प्रोफेसर बनना। यह उसका मुख्य ध्येय होता है, परन्तु जब वह पी.एच-डी. कर लेता है, तब उसका अध्ययन तथा अनुभवरोजगार के बहु आयामी विकल्प उत्पन्न कर देते हैं। यथा-राइटिंग रिसर्च, इन्वेस्टमेंट, बैंकिंग, लॉ आदि क्षेत्रों से संबद्ध क्षेत्र।

पी.एच-डी. मात्र एक उपाधि (एक डिग्री) नहीं है। इस उपाधि को प्राप्त करने के दरम्यान उसे ज्ञान पर निर्भर अनेक गतिविधियों में शामिल होना पड़ता है। साथ ही एक

जटिल समस्या को हल करने हेतु जिस प्रकार उस पर घंटों परिश्रम करना होता है, उसी तरह इस डिग्री को हासिल करने हेतु भी घंटों और दिनों ही नहीं अपितु वर्षों कामनन, अध्ययन एवम् विश्लेषण जुड़ा रहता है। तुलनात्मक रूप से ऐसे परिणाम प्रस्तुत करने हेतु हैं जिन्हें पूर्व में उजागर नहीं किया गया होता है। ये भविष्य में लोगों के मार्गदर्शक हो सकते हैं।

वर्तमान में पी.एच-डी. संबंधी शिक्षा ने संपूर्ण परिवेश में परिवर्तन ला दिया है। कुछ समय पूर्वतक यह उपाधि अकादमिक क्षेत्र तक ही सीमित थी, परन्तु अब समाज में उत्पन्न परिस्थितियों के कारण इसके क्षेत्र में विस्तार बहुविकल्पीय दृष्टिगत होता है। किसी भी नये कार्य शुरुआत, उसमें नवीन प्रयोग तथा अनेक सुधारों का भंडार है यह डिग्री अब।

अतः अब इस उपाधि के माध्यम से उभरते हुए संगठन में अपना स्थान तो बनाया ही जा सकता है, साथ ही अपने ज्ञान एवं विशेषज्ञता को बेहतर तरीके से इस्तेमाल कर सकते हैं।

पी.एच-डी. करते समय उसे शोध प्रबंध का लेखन करना होता है, साथ ही ऑकड़ों का वर्गीकरण, विश्लेषण, संकलन, परीक्षण भी करना जरूरी होता है। साक्षात्कार लेना, जाँच करना, विभिन्न रिपोर्टों के प्रकाशन, सामूहिक चर्चाओं में भाग लेने, शोध सेमिनारों में शामिल होने उन्हें संचालित करने तथा उनके आयोजन से लेकर उनमें शोध-पत्रों के वाचन जैसे अनेक कार्यों से चरणबद्ध तरीके से गुजरना होता है। इन कार्यों के क्रियान्वयन के दौरान उसे अपनेको एक कुशल विशेषज्ञ के रूप में प्रतिष्ठित करना होता है। उसका यह प्रयास उसे बहुआयामी व्यक्तित्व प्रदान करता है। समझ की श्रेष्ठता उसके कर्म की सामर्थ्य उसे गुणवान बनाती है, जिनसे वह रोजगार के नये आयामों को तलाश लेता है जैसे-शिक्षण, भाषण लेखक, अनुवादक, पटकथा लेखक, हिन्दी अधिकारी, समाचार वाचक, पत्रकार, आकशवाणी उद्घोषक, दूरदर्शन के समस्त कार्यक्रमों का प्रस्तुतकर्ता, उपन्यासकार, कहानीकार, लेखक आलोचक, प्रबंधक, संस्था में स्वागतकर्ता (रिसेप्शनिष्ट), निदेशक, स्वव्यवसायी, स्कूल खोलना, प्रशिक्षण संस्थानों में प्रशिक्षण दाता आदि कुछ ऐसे विकल्प हैं जिन्हें अपनाकर वह अपने ज्ञान का उपयोग अनेक क्षेत्रों में करता है। इसी सतय सीखे हुए कम्प्यूटर संचालन द्वारा वह कम्प्यूटर के क्षेत्र से जुड़े सभी व्यवसायों में हाथ आजमाकर अपने लिए रोजगार हासिल कर सकता है।

Department of Philosophy

B.A. Philosophy

Introduction:

Usually, Philosophy as a subject matter as universally publicized as a tough, complex and fit for other worldly knowledge. The graduation student may get acquainted with the subject and this fact too that Philosophy is not such type of superficial subject and a subject intensed in all the subjects, Central Board of Studies tried to introduced social philosophy, Political philosophy, Religion, Ethics, Indian and Western knowledge traditions to inculcate the values and make the students to develop overall personality..

Programme Outcomes

- PO1 In the first paper of B.A. Ist Year Programme, the students will get aware that after of all theories which are originated from philosophy, while studying, socio-political philosophy, the students will get a philosophical approach of our social and political principles to make themselves dependent.
- PO2 With the study of Ethics, Student may get adapted to the moral values and concepts in society in the age of today's consumerism which is essential for human sentiments and concerns. Indian knowledge tradition, western ethical concepts and comparative study will prepare the students for a global competence with the back-up of ethical discourses.
- PO3 The Vedic origin of Indian knowledge tradition, epistemological and metaphysical study of theistic and atheistic traditions will help the students mind, make sharp, good oration and lust for the knowledge exchange.
- PO4 A second year student will reserve his space everywhere on the knowledge and skill level too, once he will study the western knowledge tradition starting from Socrates-Plato-rationalism and empiricism.
- PO5 Indian and western logic will make final year students sharp, skilly adept well versed when he will be speaking somewhere. Most of the part of this Programme helps the students prepare for the competitive exams – like verbal and non-verbal questions, assertion and conclusion. This paper is of great help for the students preparing for competitive

exams like – SSC, Banking etc. Logic guarantees the maximum success in any of the exam.

PO6 Philosophy of religion and applied part of it will improve the thinking capacity in a secular and universal way. Religious fanaticism, faith and belief, religious tolerance and such type of popular theories will make a discrimination between a philosophy and non-philosophy students. Disputed religions concepts dissolve when this paper comes into study and understanding.

Course outcomes

B.A. Philosophy

- **Knowledge improvement (K.I.)**- Association of Philosophy with other subject will enhance co-existence.
Skill Development (S.I.) - Inter-disciplinarily and mutual relation will suffice Philosophy.
- **K.I.** – Ethical concepts and discourses will make the student diligent and dependent.
S.I. – Prevalent injustice, inhuman and unlawful activities in the society are against ethics and awareness will be elevated.
- **K.I.** - Holistic knowledge of Indian wisdom will broaden the attitude towards new global world.
S.I. – Having knowledge of ancient wisdom will distinguish the personality while lecturing, writing or presenting any idea.
- **K.I.** – Knowledge of western thought will demarcate the orientation between Indian and western system while comparing a matter.
S.I. -Greek tradition is supposed to be ancient like us. That is why a person will be seen dissimilar with the herd.
- **K.I.** – Practical and applied knowledge will enhance the competence while appearing for competitive exams.
S.I. – Will gratify the personality on the point of debate, discussion and other places with the help of good points.
- **K.I.** – Right path and right direction can be achieved by getting religious principles over understanding of religion, religious awareness and other complexities.
S.I. – Will make understand the social rituals, blind faiths and misleading objects and improve faith intuition and wisdom too.

Department of Political Science
B.A. Political Science
Program Outcomes

- PO1 After graduation of this course a student can be politician, ideal citizen, teacher, social activist, activist in NGO's, government servant, journalist, new reader etc.
- PO2 Understands about the politics and government at local, state, national and global levels.
- PO3 To make students aware to about Rights and Duties.
- PO4 Develop leadership qualities in students.
- PO5 Develop decision making ability and communication skills.

Program specific Outcomes
B.A. Political Science

- PSO1 This program aims to introduce political insights and democratic values among students.
- PSO2 To develop political awareness and consciousness among students with subject matter.
- PSO3 Develop to take decision and leadership qualities.
- PSO4 Develop communication skills.
- PSO5 Students develop critical thinking to analyze and evaluate happenings in local, national and international level.

Course outcomes
B.A. I Year NEP

Course 244: Paper I -*Political Theory*

Students learn definition, nature and scope of political science.

- CO1. Student will be able to understand meaning and significance of Political theory, different ideologies and approaches.
- CO2. They will be able to explain concept of state and its changing nature.
- CO3. They will learn what is power and authority and how they are interwoven. These two concepts will further enhance their understanding of politics.
- CO4. They will be able to learn different dimensions of sovereignty and its relation with state.
- CO5. They will be able to explain liberty, equality, justice and rights. Understanding of these key political concepts will facilitate students in real political.
- CO6. They will be able to explain different models of democracy and theories of representation.

Course 245 : Paper II - *Indian constitution*

- CO1. Students understand the history of Indian national movement and making of Indian constitution.
- CO2. Inculcates knowledge of Fundamental Rights and Duties.
- CO3. It enables students to understand judiciary, state executive and Indian Parliament.

B.A. II Year

Course 246: Paper I -*Representative Political Thinker*

- CO1. Students learn ideas of great political thinkers of ancient as well as modern period.
- CO2. The views of thinker are studied in detail and are made aware of their characteristics and their ideology.

Course 247 : Paper II -*Constitution of Major Countries*

- CO1. It helps to understand about different constitution of the world like Constitution of Britain, America, Switzerland, China, and Pakistan etc.
- CO2. It helps to understand the salient features of executive legislative, judiciary and political parties of various countries.
- CO3. By providing detailed teaching to students to make them aware of political system of major countries.

**Department of Political Science
M.A. Political Science
Program outcomes**

- PO1 It provides a foundation for further research in Political Science.
- PO2 Prepare M.A. students for purposeful careers in politics, government office, journalism, social services and other professions and also research scholars, civil services etc.
- PO3 It contributes in building value based bright citizens for the nations.
- PO4 To understand the constitutional frame work.

Program specific Outcomes
M.A. Political Science

By the end of the program the students-

- PSO1 This program aims to introduce political insights and democratic values among students.
- PSO2 To develop political awareness and consciousness among students with subject matter.
- PSO3 Augment their decision making skills and leadership qualities.
- PSO4 Develop communication skills.
- PSO5 Students develop critical thinking to analyze and evaluate happenings in Local, National, and International spheres.
- PSO6

Course outcomes
M.A. Semester I

Course 250: Paper I -*Modern Indian Political Thinkers*

- CO1. The major objective of this course is to introduce the students to some of the key of modern Indian thinkers and their ideas which helped in shaping the society and politics of modern India.
- CO2. Student understands the complete knowledge of Gandhi- Social Reformer, a Statesman, Economic Activist.
- CO3. Understand views of- Nehru, Dindayal Upadhyaya, Dr. Ambedkar, Jinnah etc.

Course 251 : Paper II -*Comparative Politics*

- CO1. Understands the historical overview of the course.
- CO2. Understands comparative politics- its meaning and scope, evaluation and behavioral frame work.
- CO3. Understands critical appraisal of Marxist and Leninist approach.
- CO4. Understand the views of Political Elites- Masca, Pareto, Laswall etc.

Course 252: Paper III- *International Politics*

- CO9. To make aware about International relations, theory, post modernism, concepts and themes.
- CO10. Understands the meaning nature and scope of International Politics.
- CO11. Understands the concept of Non-Alignment, Disarmament and Arms Control.
- CO12. Understands Environmental Issues and Terrorism.

Course 253 : Paper IV -*Public Administration-Major Ideas and Issues*

- CO1. Demonstrate broad understanding of public affairs, economic analysis and critical thinking.
- CO2. Understands meaning and nature of Public Administration.
- CO3. Understands impact of Information Technology in Administration.
- CO4. Understands liberal Democratic Approach.
- CO5. Understands modernization of Bureaucracy.

M.A.Semester II

Course 254: Paper I -*Western Political Thinkers*

- CO1. To enhance the understanding of approaches to the study of political thought.
- CO2. Understands political thoughts of Plato, and Aristotle.
- CO3. Understands thoughts of Marx, Lenin, Bentham.

Course 255: Paper II-*Politics of South Asian Countries*

- CO3. To make the students aware about diversity, commonalities and contradiction of South Asia.
- CO4. Understands brief history and general information of- Bangladesh, Sri Lanka, Nepal.

Course 256: Paper III -*International Organization*

- CO1. To allow a better understanding of the structures of international relation.
- CO2. Understands the structure and function of United Nations.
- CO3. Understands UN's role in Disarmament.
- CO4. Understands economic and social development of the role of United Nations.

Course 257 : Paper IV -*Research Methodologies*

- CO1. Students understand a general definition of research design.
- CO2. Students should know the primary characteristics of quantitative and qualitative research.

M.A.Semester- III

Course 258: Paper I - *Indian Government and Politics*

- CO1. Students understand individual society and politics-religion, region, language.
- CO2. Discourses discussions and debates on culture, civil society and environment.

Course 259: Paper II -*State Politics in India*

- CO1. Understands the formation of state executive: Governor, Chief Minister, Council of Ministers.
- CO2. Develop the understanding in the students about historical and emerging trends in political process in the Indian states.
- CO3. Understands about Judiciary.
- CO4. Understands about Inter-State Council, State Planning and State Finance Commission.

Course 260: Paper III - *International Law*

- CO1. Helps to understand International law and international relations.
- CO2. Understands International Legal Principles, Equality, Diplomatic Immunities and Extradition.
- CO3. Understands detail study about- Law of Neutrality, Rights and Duties.
- CO4. Understands the policies of law of Air, Land and Sea.

Course 261: Paper IV- *Foreign Policy of India*

- CO1. To analyze national and global events from various perspectives of social science.
- CO2. How to promote international peace and security.
- CO3. Students understand in detail about economic development of India.
- CO4. Understands the relation with USA, Russia, China, Pakistan, Bangladesh etc.
- CO5. Understands the policies of SAARC and UNO.

Semester- IV

Course 262: Paper I - *Indian Federal and Local Self-Government*

- CO1. Understand federal system and local self-government.
- CO2. Emerging trends in Indian federalism.
- CO3. Understand local self-government.

Course 269 :SPORT DEPARMENT

Importance of Physical Education and Sports.

Participating in physical activities and sports besides developing physique, contributes to build self-confidence, reduction of anxiety level, and imbibes outgoing tendency. As such proficiency leads to increased success in physical tasks which are valued in ones group. Success in sports activities in

child hood and adolescence enhances self-esteem whereas lack of physical aptitude leads to feelings of inferiority.

One of the primary athletic programmers is in the development of the athletics self-concept. Research shows that the development of the athletics self-concept, which we feel good about over selves, we are perhaps apt to study more efficiently, in other words the physical program contribute to the development of a favorable self-concept. Athletic programs can and should make beneficial contribution to the self-concept Athletic programs can and should make beneficial personality traits revolve around what could be considered the athlete self-concept. Traits such as self-confidence, self-assurances, self-assertiveness, self-esteem, self-regard, self-consistency, self enhancement, and self-respect all evolve out of the elaboration of a person, Self-image, self-concepts and self-confidence for example has been identified as being high in athletes by Johnson and he found athletes having high sense of personal worth and self-confidence.

There is saying “if you want to save 10 rounds of bullet shots give 10 tennis balls to youth” This could canalize the enrage of the youth.

Management Of physical Education and Sports

Every day most of the students learn different games & they practice it. College itself provides different equipment of games without taking any money.

According to calendar for games launched by M.P. Higher education department & Barkatullah University, Bhopal we try to teach our student different types of games and make them practice & before 15 days of the competition we select a team of students & give special coaching for every particular game.

According to the calendar each team participate in intercollege as well as in district level completions.

Besides this we teach our students Yoga, Exercise, Judo, Karate, Marshalarts etc.

Development and maintenance of Sports Ground

For the proper maintenance of sports ground labor is appointed on daily basis payment.

Incentives given to outstanding students

- During college admission special weightage is given to students/ players as per the government rules.
- Players selected in college team are imparted special coaching for a period of minimum one month. The respective coaches are made available from sports and youth Welfare department. Sometime the players also go to T.T. Nagar stadium for advance training. And also get change to play with other players for various institutions.
- College team is provided sports kit i.e. T-shirt, shorts, shoes and track suit.
- College team players are give daily allowance @ Rs. 25/- for a period of 10 days apart from the days of competition.
- National players achieving 1st 2nd and 3rd position at national level sports organized by the government or winning National awards.
- Special relaxation in attendance is given to players for attending coaching camps and tournaments.
- As a special case a separate semester examination is conducted if the student participate in sports tournaments and miss their examination.

Management of Physical Education and Sports

Every day most of the students learn different games & they practice it, College itself provide different equipment of games without taking any money.

According to calendar for games launched by M.P. Higher Education Department & Barkatullah University, Bhopal we try to teach our student different types of games and make them practice & before 15 days of the competition we select a team of students & give special coaching for every particular game.

According to the calendar each team participate in intercollege as well as in district level competition.

Besides this we teach our students Yoga, Exercise, Judo, Karate, Marshalarts etc.

Fund Allocation

Sports fund is used for the conduct of sports activity and for the organization of various levels of sports tournaments and construction of infrastructure. The sports tournaments and construction of collected from the fees of the students. There are two types of sports fees. Each students contributes Rs. 12/- which

goes into the amalgamated fund. Special sport fee of Rs. 180/- per student is collected of which Rs. 110/- is retained by the college and 70/- is given to the University.

Year	Physical Fund	Games Fund	Give to the University
2015-16	2274X180=409320	2274X12 = 27288 was available for games fund	2274X70 = 159180
2016-17	2294X180=412920	2294X12 = 27528	2294X70 = 160580
2017-18	2600X180=468000	2600X12 = 31200	2600X70 = 182000
2018-19	3041X180=547380	3041X12 = 36492	3041X70 = 212870
2019-20	3542X180=637560	3542X12 = 42504	3542X70 = 247940
2020-21	3845X180=692100	3845X12 = 46140	3845X70 = 361950

Utilization of Sports Fund

Sports fund Utilized as follows:

1. For the Purchases of sports goods.
2. For T.A. and D.A. for student to participate in tournaments.

बी.ए. प्रथम वर्ष (संस्कृत) छम्ह
प्रश्न पत्र – प्रथम

प्रश्न पत्र—प्रथम .वेद, व्याकरण एवं भाषा नैपुण्य।

इकाई . 1 . वैदिक संहिताओं का परिचय, वैदिक एवं लौकिक संस्कृत की विशेषताएँ –

CO1. छात्रों को वेद का शाब्दिक अर्थ व चारों वेदों का ज्ञान प्राप्त हुआ।

CO2. छात्र वैदिक संहिताओं के परिचय से परिचित हुए।

CO3. विद्यार्थियों को वैदिक एवं लौकिक संस्कृत की विशेषताओं का परिचय प्राप्त हुआ।

इकाई .2 . वेद –

CO1. छात्रों को ऋग्वेद, यजुर्वेद और अथर्ववेद के सूक्त, मन्त्र, देवता, मण्डल, छन्द व ऋषि आदि का ज्ञान प्राप्त हुआ।

इकाई .3 . शब्दरूप एवं धातु रूप –

CO1. छात्रों के शब्द रूप के माध्यम से कारक, विभक्ति, लिंग, वचन, संज्ञा व सर्वनाम आदि व्याकरण का ज्ञान करना।

इकाई.4 . लघुसिद्धान्त कौमुदी प्रत्याहार संज्ञा एवं सन्धि –

CO1. संस्कृत भाषा एवं व्याकरण से छात्रों को परिचित कराया।

CO2. विद्यार्थियों ने प्रत्याहार एवं संज्ञा प्रकरण का ज्ञान प्राप्त किया।

इकाई .5 . विभक्त्यार्थ एवं अनुवाद –

CO1. छात्रों में अनुवाद करने का कौशल विकसित हुआ।

CO2. संस्कृत साहित्य में छात्रों को हिन्दी से संस्कृत में एवं संस्कृत से हिन्दी में अनुवाद करने के माध्यम से भाषा का ज्ञान कराया।

.....ग.....

बी.ए. प्रथम वर्ष
प्रश्न पत्र— द्वितीय
आर्षकाव्य एवं लौकिक काव्य

इकाई .1 .बाल्मीकि रामायण में सुन्दरकाण्ड का परिचय –

C01. छात्रों को आर्षकाव्य एवं लौकिक काव्य का परिचय प्राप्त हुआ।

C02. छात्रों ने बाल्मीकि रामायण का महत्वपूर्ण काण्ड सुन्दरकाण्ड का ज्ञान प्राप्त किया।

इकाई.2 . महाभारत का सामान्य परिचय –

C01. छात्रों को महाभारत व उनके सभी पर्वों विशेष रूप से शान्ति पर्व (अध्याय-192) का संक्षिप्त कथावस्तु से अवगत कराया।

C02. इस इकाई के माध्यम से छात्रों को मानव जीवन में चारों आश्रमों के महत्व को बताया—विशेष रूप वानप्रस्थाश्रम एवं सन्यास—आश्रम।

C03. छात्रों को महाभारत के ज्ञान एवं महत्व से अवगत कराया।

इकाई .3 . रघुवंश महाकाव्य का सामान्य परिचय एवं महत्व—

C01. छात्रों ने रघुवंश महाकाव्य का सामान्य परिचय एवं महत्व का ज्ञान प्राप्त किया।

C02. विद्यार्थियों को रघुवंशीय राजा—दिलीप, अज, दशरथ और राम के चरित्र से परिचय कराया।

इकाई .4दृस्वप्नवासवदत्तम् का सामान्य परिचय—

C01. इकाई के माध्यम से विद्यार्थियों को नाटक विधा का परिचय प्राप्त हुआ, महाकवि भास के जीवनवृत्त व उनकी रचनाओं का ज्ञान प्राप्त हुआ।

C02. विद्यार्थियों को 'स्वप्नवासवदत्तम्' के नायक उदयन एवं नायिका वासवदत्ता के चरित्र—चित्रण से अवगत कराया।

इकाई .5 . लघुत्रयी एवं वृहत्त्रयी का सामान्य परिचय एवं मेघदूत—

C01. लघुत्रयी— मेघदूत, रघुवंश एवं कुमारसम्भव आदि लघुत्रयी के अंतर्गत आने वाले खण्डकाव्य एवं महाकाव्य से व उनकी सामान्य कथावस्तु से छात्रों को परिचित कराया।

C02. वृहत्त्रयी —किरातार्जुनीयम, शिशुपालवध, नैषधीयचरित्रम् के द्वारा महाकाव्यों एवं महाकावियों से छात्रों को परिचित कराया।

C03. मेघदूत – खण्डकाव्य के द्वारा मेघ का दूतकार्य के माध्यम से यक्ष का सन्देश यक्षिणी को देने से मेघदूत की महत्ता एवं रोचकता से छात्रों को परिचित कराया।

बी.ए. द्वितीय वर्ष
प्रश्न पत्र— प्रथम
गद्य—दर्शन एवं व्याकरण

इकाई .1 . शुकनासोपदेश का परिचय –

C01. विद्यार्थियों को बाणभट्ट विरचित कादम्बरी का परिचय एवं कथावस्तु का ज्ञान प्राप्त हुआ।

C02. शुकनासोपदेश के संक्षिप्त उपदेश से छात्रों को ज्ञान प्राप्त हुआ।

इकाई .2 . आस्तिक एवं नास्तिक दर्शन—

C01. छात्रों को आस्तिक एवं नास्तिक दर्शन (सांख्य, योग, न्याय, वैशेषिक, वेदान्त तथा मीमांसा) से परिचित कराया।

C02. छात्रों को तीन नास्तिक दर्शन (जैन, बौद्ध, चार्वाक, दर्शनों) का ज्ञान प्राप्त हुआ।

इकाई.3 . षोडश संस्कार –

C01. छात्रों को षोडश संस्कारों का परिचय तथा विधान एवं महत्व को समझाते हुए विशेष ज्ञान से अवगत कराया।

C02. वर्तमान परिपेक्ष्य में षोडश संस्कार का महत्व नामकरण विवाह संस्कार अन्त्येष्टि संस्कार का ज्ञान भी विद्यार्थियों को प्राप्त हुआ।

इकाई.4 . वाच्य परिवर्तन एवं निबंध –

C01. संस्कृत व्याकरण में वाच्य परिवर्तन (कर्तृ, कर्म, भाव, वाच्य) नियम तथा उदाहरण के द्वारा छात्रों को ज्ञान प्राप्त हुआ।

- CO7.** Acquire knowledge about the contribution of the Princely States of Madhya Pradesh in the Freedom Movement.

Department of Economics
B.A. Economics III Year
Program Outcomes

Course 21: Economics of Growth and Development (DSE)

After completing this course -

- CO1.** Students will be able to understand the theories of development and growth models so as to explain the development or growth process of various countries, states and regions.
- CO2.** It will also give an idea about how they are different by giving empirical details of various indicators of growth and development in India in comparison to other parts of the world.
- CO3.** Students will be able to use theories of growth and development to analyze the problems of the developing world.

Course 22: Statistics (DSE)

On Completing the Course:

- CO1.** Students will be able to understand and develop the insights and knowledge base of various concepts of statistics such as methods of data collection, measures of central tendency and dispersion.
- CO2.** They will also be able to understand the various techniques of correlation and regression coefficient, time series, index number and probability.
- CO3.** They will be able to well aware of sources of data collection in India interpret empirical data relating to sectors.

Course 22: Mathematics for Economics (DSE)

After completing this Course, students will be able

- CO1.** To improve the mathematical skills necessary to study economics.
- CO2.** To identify, solve and interpret the characteristics of functions.
- CO3.** To use basic Calculus, Matrix, Differentiation, Integration, Linear Programming and Game theory in economic analysis.
- CO4.** To understand different financial project evaluation techniques in economics.

Course 23: Elementary Econometrics (DSE)

After completing this Course:

- CO1.** Students will be able to explain a comprehensive introduction to the basic concept and estimation of ordinary least square method which is

essential for practical understanding of economic relations and framing economic models.

- CO2.** They will be able to know about various concept of hypothesis testing, estimation and diagnostic testing of regression models specification and selection of regression models.

Course 24: Gender Economics (Minor/Elective)

After completing this Course: the students will be able to :

- CO1.** Become Familiar with theoretical concepts in the area of gender economics.
- CO2.** Develop the ability to understand the methodology of gender analysis.
- CO3.** Develop the ability to understand the demography of female population and its role in development.
- CO4.** Analyse the various gender issues affecting developments.

Department of Geography
B.A. Geography III Year
Program Outcomes

Course 25: Regional Geography of India (DSE)

After the completion of course, the students will be able to: -

- CO1.** Comprehend the Geography of India.
- CO2.** Acquire an understanding of relationships between physiography and drainage & climate and soil.
- CO3.** Locate resources on the map.
- CO4.** Learn about the concept of region and its importance in planning and development.
- CO5.** Comprehend and analyze the India's relations with its neighboring countries.
- CO6.** Develop awareness about the availability of resources, their exploitation, and conservation.

Course 26: Map Projections and Geographical Methods-I (Practical-1)

After the completion of course, the students will be able to: -

- CO1.** Prepare Equatorial and oblique cases of Gnomonic and Stereographic Projections.
- CO2.** Analyze the drainage density of any region.
- CO3.** Comprehend and conduct re-sectioning by Plane Table Survey.

Course 27: Regional Planning and Development (DSE)

After the completion of course, the students will be able to: -

- CO1.** To comprehend the concept of Region and Regional Planning.
- CO2.** To familiarize with the theories and models for Regional Planning.
- CO3.** To develop understanding about concept of Development, Sustainable Development and different Programs and Policies.
- CO4.** To use planning as a tool for reducing disparities and gaps among regions by scientific study of their resources, modern needs and cultural heritage.

Course 28: Field work and Excursion-I (Practical 2)

After the completion of course, the students will be able to: -

- CO1.** Conduct proper field work for collection of primary data to bring out grass root realities.
- CO2.** Learn the Science and Art of collecting, processing, and interpreting the Data.

CO3. Prepare a Report based on Field work and Excursion.

Course 29: Urban Geography (DSE)

After the completion of course, the students will be able to: -

- CO1.** Comprehend the concept and processes of Urban Geography.
- CO2.** Learn the functional classification of cities and Central Place Theory.
- CO3.** Analyze the consequences of urban environmental issues at different scale.
- CO4.** Apply their knowledge in Sustainable Environmental Management and forming strategies in Urban Planning.

Course 30: Environment and Resource management (DSE)

After the completion of course, the students will be able to: -

- CO1.** Comprehend the Environment, inter-relationship of Natural and Human Environment and Ecology.
- CO2.** Analyze the relationship between Environmental Degradation and Quality of Human Life.
- CO3.** Develop awareness about sustainable Development and learn about contemporary environmental issues.
- CO4.** Analyze the Natural Resources, their depletion, conservation, and management.

Course 31: Hydrosphere & Marine Resources (Oceanography) (Core/Minor course)

After the completion of course, the students will have the ability to: -

- CO1.** Comprehend the elements of ocean and ocean bottoms.
- CO2.** Apprehend the oceanic processes.
- CO3.** Analyse the resource stored in the oceans and ocean environment.

Course 32: Geo informatics and Statistical Methods (Core/Minor course)

After the completion of course, the students will be able to: -

- CO1.** Expose the students to the use of updated techniques of Aerial Photography and Remote Sensing.
- CO2.** Apply the statistical methods in analyzing and drawing inference from Geographical Data.
- CO3.** Apprehend the Plane Table Survey Technique.

Department of English
B.A. English III Year
Program Outcomes

Course 33: English Language: Structure and Translation (DSE)

On successful completion of this course, the students will be able to: -

- CO1. Define the English language structures and their functioning in relation to phonology and morphology.
- CO2. Evaluate the relationship between the English language and society.
- CO3. Establish an understanding of the English language's artistry and utility.
- CO4. Comprehend the elements and scope of translation.
- CO5. Apply and practice techniques of English Grammar.
- CO6. Depict the production of speech sounds and IPA symbol.

Course 34: Practising English Language: Structure and Translation (Practical)

On successful completion of this course, the students will be able to: -

- CO1. Define language structures, pronunciation, and functioning of the language.
- CO2. Evaluate the relationship between language and society.
- CO3. Establish an understanding of the artistry and utility about the English language.
- CO4. Comprehend the elements and scope of translation.
- CO5. Acquire mastery over communicative competence in English.
- CO6. Apply and practice the techniques of English Grammar.

Course 35: Indian Diaspora Literature (DSE)

On successful completion of this course, the students will be able to: -

- CO1. Explain the theoretical backgrounds of international migration, race, and ethnicity.
- CO2. Define the various attributes of the Indian diaspora and the 'ambivalence' of their attitudes towards their own motherland as well as their adopted homeland,

- CO4. Discover their own country from a different prism through the eyes of writers who have lived in a composite culture.
- CO5. Create an interpretation of the texts in the context of diaspora conditions.

Course 36: Evaluation of Indian Diaspora Literature (Practical)

On successful completion of this course, the students will be able to: -

- CO1. Explain and evaluate the theoretical backgrounds of international migration, race, and ethnicity.
- CO2. Analyse the various attributes of the Indian diaspora and the 'ambivalence' of their attitudes towards their own motherland as well as their adopted homeland.
- CO3. Demonstrate the quest for cultural identity on the part of the citizens of the Indian diaspora and would be able to understand the psychological, social and political problems associated with diaspora culture.
- CO4. Discover our own country from a different prism through the eyes of writers who have lived in a composite culture.
- CO5. Create an interpretation of the texts in the context of diaspora conditions.

Course 37: Literary Criticism and Theories (DSE)

On successful completion of this course, the students will be able to: -

- CO1. Use literary theoretical concepts to develop their own interpretations of literary texts.
- CO2. Broaden their understanding of an author's work by summarizing, interpreting and exploring its value.
- CO3. Analyse and apply specific literary theories in order to distinguish them from other theories and to identify the structure and logic of their arguments
- CO4. Think critically about a range of literary theories.
- CO5. Write in an insightful and informed way about specific literary theoretical works.

Course 38: Practising and Evaluating Literary Criticism and Theories (Practical)

On successful completion of this course, the students will be able to: -

- CO1. Critically evaluate different literary pieces.
- CO2. Use literary theoretical concepts to develop their own interpretations of literary texts.
- CO3. Broaden their understanding of an author's work by summarizing, interpreting, and exploring its value.
- CO4. Analyse and apply specific literary theories in order to distinguish them from other theories and to identify the structure and logic of their arguments.
- CO5. Think critically about a range of literary theories.
- CO6. Write in an insightful and informed way about specific literary theoretical works.

Course 39: Indian Writing in English (DSE)

On successful completion of this course, the students will be able to: -

- CO1. Depict the strengths and constraints of Indian English as a literary medium.

- CO2. Appreciate the historical trajectory of various genres of Indian Writing in English from colonial times till the present.
- CO3. Analyse Indian literary texts written in English in terms of colonialism, postcolonialism, regionalism, and nationalism.
- CO4. Develop a literary sensibility and display an emotional response to the literary texts and cultivate a sense of appreciation for them.
- CO5. Evaluate critically the contributions of major Indian English poets, dramatists, and novelists.

Course 40: Evaluation of Indian Writing in English (Practical)

On successful completion of this course, the students will be able to: -

- CO1. Depict the strengths and constraints of Indian English as a literary medium.
- CO2. Appreciate the historical trajectory of various genres of Indian Writing in English from colonial times till the present.
- CO3. Analyse Indian literary texts written in English in terms of colonialism, postcolonialism, regionalism, and nationalism.
- CO4. Develop a literary sensibility and display an emotional response to the literary texts and cultivate a sense of appreciation for them.
- CO5. Evaluate critically the contributions of major Indian English poets, dramatists, and novelists.

Course 41: Indian English Poetry and Drama (Minor/Elective)

On successful completion of this course, the students will be able to: -

- CO1. Appreciate the historical trajectory of various genres of Indian Writing in English from colonial times till the present.
- CO2. Evaluate critically the contributions of major Indian English poets and dramatists.
- CO3. Analyse how the sociological, historical, cultural, and political contexts impacted the texts selected for study.
- CO4. Interpret the strengths and constraints of Indian English as a literary medium.
- CO5. Develop a literary sensibility and display an emotional response to the literary texts and cultivate a sense of appreciation for them.

Course 42: Evaluation of Indian English Poetry and Drama (Practical) (Minor/Elective)

On successful completion of this course, the students will be able to: -

- CO1. Appreciate the historical trajectory of various genres of Indian Writing in English from colonial times till the present.
- CO2. Evaluate critically the contributions of major Indian English poets and dramatists.
- CO3. Analyse how the sociological, historical, cultural, and political contexts impacted the texts selected for study.

- CO4. Interpret the strengths and constraints of Indian English as a literary medium.
- CO5. Develop a literary sensibility and display an emotional response to the literary texts and cultivate a sense of appreciation for them.
- CO6. Cultivate critical thinking and creativity.

Department of Philosophy
B.A. Philosophy III Year
Program Outcomes

Course 43: Outlines of Indian Philosophy (DSE)

- CO1. By studying this course, a student will learn various treatises on classical Indian Philosophy and enquiries into the different texts which led the foundation of Indian Philosophy.
- CO2. By studying this course, a student will be able to get the detailed introduction of Indian knowledge system.

Course 44: Western Philosophy (DSE)

- CO1. Students will acquire the knowledge of major Philosophies of Britain, France, Ireland, and Germany by studying the course.
- CO2. The course would be helpful to increase analytical and synthetical thinking abilities in the students.
- CO3. A critical evaluative approach would be enhanced in the students.
- CO4. The course would be useful for various State and National level competitions.

Course 45: Indian and Western Ethics (DSE)

- CO1. Students will be able to study Indian and western ethical concepts.
- CO2. Students will get inspiration to lead a moral life by study of ethics.
- CO3. Students will enhance their knowledge by comparative study of Indian and Western ethics.
- CO4. The study of Ethics will be useful for students from the point of view of Competitive examinations.

- CO4. He may be recruited as motivational speaker in government, private and corporate sector.

Department of Hindi
B.A. Hindi III Year
Program Outcomes

Course 48: काव्यांग विवेचन एवं जनपदीय भाषा-साहित्य (बुन्देली/मालवी/बघेली) (DSE)

इस पाठ्यक्रम के सफल समापन पर, विद्यार्थी निम्न में सक्षम होंगे:

- CO1. विद्यार्थी काव्य के प्रमुख अंगों का अध्ययन कर काव्य को भली भाँति समझ सकेंगे।
- CO2. जनपदीय भाषा एवं साहित्य का ज्ञान प्राप्त कर सकेंगे।
- CO3. जनपदीय भाषा साहित्य के माध्यम से भारतीय संस्कृति की विविधता से परिचित होंगे।
- CO4. विद्यार्थी जनपदीय भाषा कौशल में पारंगत होंगे। क्षेत्रीय भाषाओं, बोलियों के साहित्य को संगीतबद्ध करना, नाटयरूपांतर करना आदि के माध्यम से स्वयं के व्यावसायिक कला, मंच स्थापित कर सकेंगे, देश-विदेश में प्रस्तुतियाँ दे सकेंगे।

Course 49: जनसंचार माध्यम: सिद्धांत और अनुप्रयोग (DSE)

इस पाठ्यक्रम के सफल समापन पर, विद्यार्थी निम्न में सक्षम होंगे:

- CO1. यह एक रोजगारोन्मुखी पाठ्यक्रम है जो विद्यार्थियों को जन संचार माध्यम में कौशल प्राप्त करने एवं रोजगार प्राप्त करने में सहयोगी होगा।
- CO2. विद्यार्थी महत्वपूर्ण व्यक्तियों के साक्षात्कार लेने में सक्षम होंगे।
- CO3. विद्यार्थियों को पत्रकारिता के माध्यम से सामाजिक और राष्ट्रीय दायित्व का बोध होगा।

Course 50: हिन्दी राष्ट्रीय काव्य धारा (DSE)

- CO1. विद्यार्थी इस पाठ्यक्रम के अध्ययन से प्राचीन परंपरा एवं आधुनिक संदर्भ में राष्ट्रीय चेतना के अर्थ से सुभिज्ञ होंगे।
- CO2. विद्यार्थी इस पाठ्यक्रम के माध्यम से राष्ट्र निर्माण में स्वयं की भूमिका का चयन करने में समर्थ हों सकेंगे।
- CO3. सृजनात्मक क्षमता वाले विद्यार्थी राष्ट्रीय चेतना से युक्त कविता और गीतों का सृजन कर गीत-संगीत एवं फिल्मों में यश एवं अर्थोपार्जन कर सकते हैं।
- CO4. विद्यार्थी राष्ट्रीय चेतना में साहित्य परंपरा से परिचित हो सकेंगे।

Course 51: हिन्दी आलोचना (DSE)

इस पाठ्यक्रम के सफल समापन पर, विद्यार्थी निम्न में सक्षम होंगे:

- CO1. विद्यार्थियों में आलोचनात्मक विवेक/समीक्षात्मक दृष्टि का विकास होगा जिससे वह आलोचना लेखन एवं प्रकाशन के क्षेत्र में रोजगार प्राप्त कर सकेंगे।
- CO2. विद्यार्थियों में भारतीय ज्ञान-विज्ञान को निरपेक्ष रूप से समझ सकेगा जिससे सामाजिक दायित्व का निर्वाह कर सकेगा। समाज कल्याण संबंधी क्षेत्र में रोजगार के अवसर प्राप्त कर सकेंगे।
- CO3. विद्यार्थियों में भाषा शिक्षण के संस्कारों का विकास होगा जिससे वह रचनात्मकता एवं भाषा के क्षेत्र में नए प्रयोग कर सकेंगे।

Course 52: हिन्दी साहित्य एवं लोक संस्कृति (DSE)

इस पाठ्यक्रम के सफल समापन पर, विद्यार्थी निम्न में सक्षम होंगे:

- CO1. विद्यार्थी लोक जीवन शैली से भिन्न होंगे।

CO2. लोक साहित्य की विविध विधाओं का अध्ययन कर अपने ज्ञान और अनुभव से शोध कार्य करने में समर्थ होंगे।

CO3. लोक कला के क्षेत्र में कौशल विकास कर, रोजगार प्राप्त कर सकेंगे।

CO4. लोक गीत, संगीत, नाट्य अभिनय आदि में रुचि रखने वाले विद्यार्थी संगीत नाट्य एवं फिल्म आदि क्षेत्रों में नया प्रयोग करते हुए देश-विदेश में यश एवं अर्थोपार्जन कर सकेंगे।

Department of Psychology
B.A. Psychology III Year
Program Outcomes

Course 53: Applied Psychology (DSE)

- CO1. Students will gain the knowledge about different aspects of applied psychology.
- CO2. Students will understand the relationship between environment and psychology.
- CO3. Acquisition of the skills to understand the multidisciplinary aspects of New Education policy.
- CO4. Students will utilize Psychological skills for community development and empowerment.
- CO5. Knowledge of Industrial & Organization Psychology will enhance the awareness about the role of psychology in Industries & Organization.

Course 54: Applied Psychology (Practical)

- CO1. Students will acquire insight about good study habits.
- CO2. Students will be able to plan the study on environmental Problems.
- CO3. Students will be capable of handling Psychological tests.
- CO4. Students will gain knowledge and develop Psychological sensitivity from Industrial visit and surveys of various socio-environmental issues.

Course 55: History and Systems of Psychology (DSE)

- CO1. Students will develop knowledge about beginning of Psychology through Indian & Western Schools of thought.

- CO4. Study of this paper will help the students to succeed in different competitive examination and interviews.
- CO5. This course will provide students a vast area of job opportunities in the field of government, private, research, and NGO's sector etc.

**Department of BBA
BBA III Year
Program Outcomes**

Course 77: Advertising and Sales Management.

On successful completion of this course, the students will be able to:

- CO1. With the rigorous curriculum students will involve as highly innovative and committed professionals with strategic marketing and communication skills required for effective selling.
- CO2. Student will be aware of developing and managing dynamic customers and business relationships.
- CO3. Students will be groomed with customer centric creative thinking and strong communication to be effective in the area of marketing and sales.
- CO4. Open up to the numerous future possibilities of higher education as well as of getting placed with reputed corporate in the country.

Course 78: Consumer Behavior

On successful completion of this course, the students will be able to:

- CO1. To create understanding about Consumers Behavior.
- CO2. To impart knowledge regarding process of decision making motivation and cultural influence.
- CO3. To familiarize students influence with
- CO4. Opinion leadership and consumer protection.

Course 79: Marketing of Services

On successful completion of this course, the students will be able to:

- CO1. Improve knowledge about marketing of services.
- CO2. Understanding of the concept of service consumer behavior.
- CO3. To impart knowledge about-strategic issues.
- CO4. In service marketing and challenges.

Course 80: International Marketing

On successful completion of this course, the students will be able to:

- CO1. Proficient in import-Export procedure.
- CO2. Student able to know about international marketing strategy.
- CO3. The components and process of logistics global marketing.
- CO4. To learn role of government policies and challenges faced to international competition.

Course 81: Retail Management

On successful completion of this course, the students will be able to:

- CO1. Understand the Fundamental Concept of Retail management.
- CO2. Understand the shopper's behaviour.
- CO3. Understand the consumer's behaviour

CO4. Understand Merchandise management

CO5. Understand visual merchandising

CO6. Understand E-Retailing system

CO7. Understand E-Payment system

Course 82: Stock Market Operations

After completion of course, students will be able to:

CO1. Explain the basic concept of securities market.

CO2. Practice trading on stock market.

CO3. Analyze the legal framework of securities market.

CO4. Explain different segment of Stock exchange.

CO5. Perform demat trading.

Department of B.Com
B.Com III Year
Program Outcomes

Course 83: International Business

After the successful completion of the course, the students shall be able -

- CO1. To understand the most widely used international business terms and concepts.
- CO2. To identify the role and impact of political, economical, social and cultural variables in international business.

- CO1. Connect with the genesis of goods and services tax (GST), decipher the constitutional amendment carried out to install in India and comprehend the composition and working of GST council.
- CO2. Understand the meaning of supply under GST law
- CO3. Comprehend the utilization of input tax credit.
- CO4. Understand the provisions for registration under GST law
- CO5. Know the basic concepts of customs Act and to compute the assessable value for charging customs duty.

Course 88: Stock market operations

After completion of course, students will be able to:

- CO1. Explain the basic concept of securities market.
- CO2. Practice trading on stock market.
- CO3. Analyze the legal framework of securities market.
- CO4. Explain different segment of Stock exchange.
- CO5. Perform demat trading.

Course 89: Management Accounting

After studying this subject, the students-

- CO1. Be well versed in a thorough analysis of any company's financial statements such as profit and loss account and position statement, and be able to make accurate estimates of the financial position, solvency, and profitability of that company.
- CO2. By studying the cash flow statement, you will get the knowledge of proper use of cash in the organization and adequate availability of cash in the organization.
- CO3. After getting the knowledge of marginal cost, will be able to make very important decisions for the company such as whether to make or buy the item, fix the price, stop production etc.
- CO4. Learn to control costs by creating different types of budgets from budgetary control.
- CO5. Prepare the managerial reports of the company.

Course 90: Internet and its Applications

On successful completion of this course, the students will be able to:

- CO1. Understand the features and applications of Internet.
- CO2. To trouble shoot day to day problems with internet.
- CO3. To understand basics of networking and web designing to use internet effectively for official and domestic applications.
- CO4. To structure a web page and its content.
- CO5. To build ecommerce websites.

Course 91: Internet and its Applications (Practicals)

On successful completion of this course, the students will be able to:

- CO1. Understand the features and applications of Internet.
- CO2. To trouble shoot day to day problems with internet.
- CO3. To understand basics of networking and web designing to use internet effectively for official and domestic applications.

Course 92: Desktop Publishing with Photoshop

After completion of course, the students will be able to:

- CO1. Gain in depth knowledge of Photoshop and its practical Applications.
- CO2. Apply various concepts of Photoshop for Desktop publishing and gain knowledge of various types of images formats.
- CO3. Gain deep insights of applicability of various types of tools available in photoshop.
- CO4. Understand about Layers, styles, Filters and Printing in Photoshop.
- CO5. Build Flyers, Posters, graphic design, web design and images using Photoshop.

**Department of BCA
BCA III Year
Program Outcomes**

Course 93: Computer Graphics (Theory)

On successful completion of this course, the students will be able to : -

- CO1. Understand the basics of coputer graphics, different graphics systems, and applications of computer graphics.
- CO2. Discuss various algorithms for scan conversion and filling of basic objects and their comparative analysis.
- CO3. Use of geometric transformations on graphics objects and their application in composite form.
- CO4. Extract scene with different clipping methods and its transformation to graphics display device.
- CO5. Explore projections and visible surface detection techniques for display of 3D scene on 2D screen.
- CO6. Render projected objects to naturalize the scene in 2D view and use of illumination models for this.

Course 94: Computer Graphics (Practicals)

On successful completion of this course, the students will be able to : -

- CO1. Understand the basics of coputer graphics, different graphics systems, and applications of computer graphics.
- CO2. Discuss various algorithms for scan conversion and filling of basic objects and their comparative analysis.
- CO3. Use of geometric transformations on graphics objects and their application in composite form.
- CO4. Extract scene with different clipping methods and its transformation to graphics display device.
- CO5. Explore projections and visible surface detection techniques for display of 3D scene on 2D screen.
- CO6. Render projected objects to naturalize the scene in 2D view and use of illumination models for this.

Course 95: Python Programming (Theory)

On successful completion of this course, the students will be able to : -

- CO1. Develop and execute simple Python Programs.
- CO2. Structure a Python program into functions.
- CO3. Using Python lists, tuples to represent compound data.
- CO4. Develop Python Programs for file processing.

Course 96: Python Programming (Practical)

On successful completion of this course, the students will be able to : -

- CO1. Develop simple Programs in Python.

- CO2. Knowledge of conditional and loop statements.
- CO3. Learning of Tuple, List, Directory in Python
- CO4. Knowledge of Files and Ooops concepts in Python.
- CO5. Introductory knowledge of pandas, PDBC and Numpy.

Course 97: Cyber Security

On successful completion of this course, the students will be able to : -

- CO1. Identify the key components of cyber security network architecture.
- CO2. Employ, design and implement appropriate security technologies and policies to protect computers and digital information.
- CO3. Analyze threats and risks within context of the cyber security architecture.
- CO4. Apply cyber security architecture principles.
- CO5. Gain familiarity with prevalent network and distributed system attacks.

Course 98: MYSQL (Theory)

On successful completion of this course, the students will be able to : -

- CO1. Understand basic concepts of how a database stores information.
- CO2. Gain knowledge of SQL syntax with MySQL.
- CO3. Design database for an organization and apply various SQL Queries and constructs.
- CO4. Apply queries to retrieve and manipulate data from one or more tables.
- CO5. Learn how to filter data based upon multiple conditions.

Course 99: MYSQL (Practical)

On successful completion of this course, the students will be able to : -

- CO1. Understand basic concepts of how a database stores information.
- CO2. Gain knowledge of SQL syntax with MySQL.
- CO3. Design database for an organization and apply various SQL Queries and constructs.
- CO4. Apply queries to retrieve and manipulate data from one or more tables.
- CO5. Learn how to filter data based upon multiple conditions.

Course 100: Cloud Computing

On successful completion of this course, the students will be able to : -

- CO1. Learn fundamentals of cloud computing.
- CO2. Understand cloud architecture, types, and services.
- CO3. Apply concepts of cloud computing in real applications.
- CO4. Gain deep insight of security in cloud computing.
- CO5. Have knowledge of market Based management of Clouds.

Department of Foundation Course
Foundation Course (B.A./B.Sc./B.com) III Year
Program Outcomes

Course 101: Personality Development and Character Building

- CO1. Students will acquire the conceptual knowledge of Personality Development.
- CO2. Students will develop insight into character building.
- CO3. Students will be able to become global visionary citizens.
- CO4. Students will be able to understand Indian knowledge tradition.
- CO5. Students will be able to understand the difference between nature, culture and distortion.
- CO6. This course will help in character building and overall development of personality of the students.

Course 102: Digital Awareness - Cyber Security.

After Completing the course, student will be able to :

- CO1. Make optimum use of web browsers, search engines, and Chatbots.
- CO2. Creating e-mail account, sending, receiving, and managing emails.
- CO3. Describe reporting procedure of phishing emails.
- CO4. Identify emails phishing attack and preventive measures.
- CO5. Configure security settings in Mobile Wallets and UPIs.
- CO6. Practice safe, legal and ethical means of using Information Technology.
- CO7. Practice and use the various online financial and government services of day-to-day use.
- CO8. Understand the basic concepts related to E-commerce and digital payments.
- CO9. Discuss cyber security aspects, RBI guidelines, and preventive measures against digital payment frauds.
- CO10. Explore and learn the online available courses of his/her interest.
- CO11. Use the Digilocker and Academic Bank of Credit.
- CO12. Describe the concept of Cyber security and issues and challenges associated with it.
- CO13. Explain the process of reporting cyber crime at Cyber crime Police station/at online platform.
- CO14. Appreciate various privacy and security concerns on online Social media.
- CO15. Guide through the reporting procedure of inappropriate content.
- CO16. Perform privacy and security settings for popular Social media platforms.

Course 103: English Language and Communication skills

Through this course the students will be able to :

- CO1. Prepare for various competitive exams by developing their competence in English language.
- CO2. Promote their comprehension and communicative skills by being exposed to a variety of texts and their interpretations.
- CO3. Build and enhance their language competence through regular practice.
- CO4. Develop their knowledge of English Grammar and usages in a practical manner.
- CO5. Compete in national and state level examinations for various competitions after the completion of the course.
- CO6. Seek a good job and to settle down in self-employment or their own business or profession.

Course 104: भाषा और संस्कृति

- CO1. इस पाठ्यक्रम के अध्ययन से विद्यार्थी हिंदी के प्रसिद्ध रचनाकार एवं उनकी रचनाओं से परिचित हो सकेंगे।
- CO2. पठित रचनाओं के माध्यम से विद्यार्थी देश की सभ्यता एवं संस्कृति से परिचित हो सकेंगे।
- CO3. पाठ्यक्रम के अध्ययन से विद्यार्थियों के व्यक्तित्व का बहुमुखी विकास होगा एवं रोजगार के अवसर उपलब्ध होंगे।
- CO4. विशिष्ट शब्दावली (बीज शब्द/की वर्ड) से परिचित करवाते हुए बोध के स्तर को विकसित करना।

Department of Vocational Course
Vocational Course III Year
Program Outcomes

Course 105: Handicraft

After studying this course, the student will be competent at professional level.

- CO1. It will provide the information about vanishing folk art forms to the student.
- CO2. The student will become familiar with the folk arts of Madhya Pradesh.
- CO3. Acquire knowledge of various folk arts' material.
- CO4. Will be well acquainted with information about various festivals.
- CO5. Along with folk revival and common creativity, students will gain profound insight into their cultural heritage.

Course 106: Tour Guiding and Interpretation

After studying this course, the student will be able to.

- CO1. Understand the concept, history, and responsibility of tour guides.
- CO2. Know the importance of effective communication skills for a tour guide.
- CO3. Have the conceptual understanding of visitor interpretation and nature interpretation.
- CO4. Have knowledge of emergencies to be handled and skills required by guides to deal with emergencies.

Course 107: Personality Development

After completion of course, student will be able to.

- CO1. Students will acquire the knowledge of different skills of personality development.
- CO2. Students will gain insight about the Importance of attitude in personality development.
- CO3. Students will be capable of assessing the personality.
- CO4. Students will be able to develop the ability for use of projective tests and personality inventories.
- CO5. Students will be aware about the psychological tests and their use in personality evaluation.
