the program.

Departement of geography

Plantation Drives

Aims and objectives

- geography department conducted a ~~green~~ Plantation drive incampus and outcampus on 13 march.
- The Main aim of Plantation Activity for green campus done by geography department one in the campus and one beyond the campus to impart values of environment to student and to give them real life experience to students
 - The purpose of plantation is to save the environment which is endangered and keep alive the beauty of our life
 - As the world is facing the issue of global warming and other environmental-related problems to recover from such issues planting trees became one of the most important aspects of life today.
 - It Helps to maintain an eco-friendly environment around the whole world and reduces air pollution and improves the greenery.

Outcome of the programme

student By going plantation activity know the value of environment, benefits of trees, beautification in and around. Plantation is a great way to increase student interest in their local environment and achieve academic goals.

- Planting tree teach us to take care of others, we need to take care of ourselves first.

Trees provide a significant contribution to their surrounding by giving oxygen, sustaining species, improving air quality, saving water, maintaining soil and reducing climate change.
